About us...

Established in 1989, Abacus is one of the UK's leading manufacturers and distributors of quality bathroom and wetroom products.

OUR PRODUCTS

Developed alongside some of the world's most prestigious bathroom brands, our comprehensive product range offers stunning contemporary designs, twinned with market-leading guarantees, which will suit all bathroom needs.

OUR PHILOSOPHY

Our approach to completing a bathroom through both product and design innovations makes us one of the only companies to supply every product required in a bathroom from conception to completion.

ICONS EXPLAINED

Defines if the tile is suitable to be used on the wall, floor, or both.

Shows the tile surface has a polished finish.

Shows the tile surface has a matt finish.

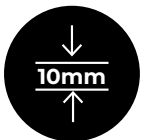

Identifies the R and PTV (Pendulum Test Value) slip resistance ratings for each tile range. The higher the rating, the greater the slip resistance.

The tile material type is porcelain.

The tile material type is ceramic.

Indicates the thickness of the tile.

CeramicPlus is a specialist surface finish that V&B apply to the tile to make it quick and easy to clean.

Vilbostoneplus is a seal, which renders the tiles particularly resistant to dirt and stains.

Vilbotouch is a new surface finish with a soft look, made with a microscopically fine structure that provides both a slip resistance class R10 and easy-care finish.

Our Brands

Ultimate Technology in Tiles

Timeless elegance, innovative design and outstanding quality, that is what the brand Villeroy & Boch has stood for since 1748.

Villeroy & Boch Wall and Floor Tile Collection exemplifies style and sophistication whilst also providing practicality. The ranges have been designed to transform a functional bathroom into a well-being oasis. Bringing together the highest quality authentic materials and refined craftsmanship with modern trends, manufactured with the highest hygiene and purity standards in mind. A comprehensive range that offers the potential to create stunning yet effortless design schemes to your home.

Tile Features

ceramicplus Villeroy & Boch

Quick and easy to clean!

CeramicPlus is an innovative dirt repellent coating applied to all Villeroy & Boch non-vitreous wall tiles during the final stages of manufacture.

This permanent, hygienic and practical scratch-resistant durable finish causes water to immediately form droplets on contact, which then merges into beads and simply drains away, taking any dirt and limescale particles with it. The result is an easy-clean, low maintenance surface, without the need for aggressive detergents.

vilbostoneplus

VilbostonePlus is a new surface coating applied to Villeroy & Boch porcelain tiles during the manufacturing process that provides an invisible protective barrier to stains and soiling making the tiles easier to clean and maintain.

vilbotouch

VilboTouch is a new surface finish applied to Villeroy & Boch porcelain tiles during the manufacturing process. Vilbotouch is used to provide the tile with an R10 slip-resistant finish that achieves PTV+36 whilst maintaining a soft look and feel that is easy to clean and maintain.

Our Brands

LAFENZA
TILE WITH STYLE

More than 145 years of beauty, creativity and excellent quality. A priceless heritage accumulated over the years on this unique journey, with the utmost respect for workplaces and the people who labour in them every day, driven by a passion and desire for progress.

MADE IN ITALY

Every space reflects the identity of those who create, love and live it. Every environment has a name. The name of the person who first imagined and then created it.

WE TILE. YOU STYLE.

Our Brands

**CERAMICA
EURO.**

Ceramica Euro, beautiful tiles 100% made in Italy. A productive idea born from the desire to transform every environment into a living design. Large technological investments, constant development of new collections, infinite passion and attention to every detail are the ingredients to produce every day porcelain tiles of great aesthetic character, great strength and durability, which makes Ceramica Euro a point of reference.

Current Trends

Colour

Wood effect

Brick style

Whilst neutral shades are still the most popular colour choice, designers and homeowners are steering towards adding a touch of colour to a palette of warm, neutral tones. Soft shades of pastel pink and muted blues create a striking yet contemporary feel.

Green and blue shades often seen in nature help to create a sense of calmness and balance in a room. The beautiful green tones of the Urban Jungle V&B tile do exactly that. These colours are a firm favourite amongst those looking to bring a touch of tranquility and style to the home.

Darker hues, such as rich navy, deep forest green and strong earthy browns are on-trend, adding a warm feel to traditional darker colours. Our stunning La Faenza Trex Nero emulates this trend, through its dark tones and contrasting flash of light.

Wood-effect tiles is a trend-turned-classic that will stay current for decades to come.

Designers are using layers of colour and patterns with natural materials like wood and marble to bring an element of nature into the home.

From distressed wood-look tiles, through to dark, rich parquet designs, these textured wood-effect tiles will make your home look warm, modern and luxurious. Choosing an ultra-durable tile over hardwood will offer you an equally elegant look with a fraction of the worry and maintenance.

Brick-style tiles have been a popular choice for many years with the trend looking set to stick around for a while.

In fact, the use of this popular tile dates back to the 1900s when it was used to decorate the walls of the London Underground and New York subway, coining the names “metro” or “subway” tiles.

Today, consumers opt for brick-effect tiles due to their versatility. They can be used anywhere in the home from bathrooms to kitchens and arranged in an array of designs including the ultra-popular herringbone pattern.

Tiling design tips

Whether you are a tiling novice or a seasoned pro, our in-house designers have shared some best practices to help make your dream project become a reality...

#1 It's all in the layout

When designing your dream bathroom it's not just about the tiles you select it's all in the layout.

Smaller format tiles, like our V&B Urbantones 10 x 30 range can be laid out in many different styles to create a striking design feature.

Top Tip: Larger format tiles like our La Faenza Vis range should be laid out in a simple, horizontal grid pattern or stack bond design. This helps to make small rooms feel bigger and creates a sleek effect with fewer grout lines and reduces the need for trimming lots of tiles, saving you time and money.

Check out our handy tile pattern layout suggestions for added inspiration.

Suggested Tile Pattern Layouts

#2 Small Space, Big Effect

Don't be afraid to use dark colours in smaller spaces. Of course lighter colours make a room feel bigger and brighter, but that doesn't mean you should shy away from using darker colours in smaller spaces. A dark tile can add a sense of depth to a room as the parameters of the tile become less clear and, much like a lighter tile, can make a space feel bigger.

Top Tip: Tile size shouldn't be determined by bathroom size. A small bathroom can actually benefit from a large tile, with fewer grout lines the walls and floor appear less cluttered and the room visually expanded.

#3 The best in test

Wetrooms are beautiful, luxurious and practical.

However due to the nature of this type of environment it is always wise to select a tile for your wet room with the appropriate slip resistance for your layout.

That is why we have identified the “R” and “PTV” ratings for each range.

The “R” rating system indicates that the tile has a slip resistant finish. The higher the rating, the greater the level of slip resistance.

The “PTV” (Pendulum Test Value) rating is designed to indicate the level of slip resistance a tile range provides when they are wet or dry. The higher the rating, the greater the slip resistance.

Please note, R ratings and PTV ratings are only assigned to tiles that are designed to provide a level of grip and slip resistance.

Top Tip: Look out for our slip resistance icon to identify the ‘R’ and ‘PTV’ ratings.

Slip Resistance
Technology

#4 The Grout Effect

Complementary or contrasting, the grout colour you select will affect the final look of your tiles.

We love how the dark grey grout in this image makes the V&B white tiles “pop”, creating a contrasting design look that will WOW your friends.

For an interior design that stands the test of time, selecting complementing grout colours when choosing stone effect tiles in the bathroom is a great choice. The beautiful Vis Almond tiles, work very well with the Rocatex beige grout, making the grout lines virtually disappear.

Top Tip: A darker grout colour can hide stains and dirt, particularly good for floors.

#5 Colour is the new grey

Whilst grey tones are still the #1 colour choice for the bathroom, we are starting to see the use of different colours in the bathroom as they help to evoke a certain mood or feel.

From the rich, dark tones of the La Faenza Trex range to the pastel pink and blue shades of the V&B Soft Colours range, exploring different colour palettes can help to add a new dimension to a bathroom.

There are no rules when it comes to choosing colours. If you're unsure, then take it slow. Rather than tiling an entire wall, start with a coloured feature wall or add a "pop" of colour with our metallic finished storage units.

Top Tip: Complement your tiles with our range of beautiful brassware and accessories, available in 5 stunning colour finishes including Matt Black and Brushed Bronze.

See www.abacus-bathrooms.co.uk for more information.

#6 Preparation is key

Before tiling any walls or floors we recommend using our Abacus Elements Building Board to create a comprehensive waterproofing and insulation system for any bathroom, wet room or steam room.

Abacus Elements Building Board is designed to be used on walls and floors to deliver the ultimate foundation for 'behind the tiles' giving total peace of mind that your bathroom is safeguarded from leaks whilst ensuring all surfaces are flat and smooth ready for your bathroom installation.

Elements Building Board is lightweight yet durable for ease of installation and ensures your bathroom stands the test of time whilst reducing the occurrence of mould and mildew giving you a more hygienic space.

For further information visit www.abacus-bathrooms.co.uk

Important tips for tiling your bathroom

- **MEASURE THE SPACE ACCURATELY**

You will need to calculate the square metre area that you are tiling– the easiest way to do this is with our simple-to-use calculator found on our website:
www.abacus-bathrooms.co.uk

When calculating the space it is important to make sure you add at least 10% extra for waste and cuts. You don't want to be half way through a project and run out.

- **SELECT YOUR PERFECT TILES**

Our products are grouped by style, making it easy for you to find the perfect option for your project, from stunning marble finishes to contemporary concrete effect. There really is a style to suit your space.

- **THINK ABOUT YOUR SPACE**

When selecting a tile range, make sure it is suitable for your space. Is the tile suitable for both wall and floor use? Does it have a slip resistance that makes it suitable for wetrooms?

Look out for our features icons on each of our tile ranges to help you with selecting the right tiles for your project.

- **DECIDE ON YOUR LAYOUT**

Before you start your tiling project, consider how you would like your tiles to be laid out. Use our handy "Suggested Tile Patterns" guide on page 14 for a little inspiration.

- **DON'T FORGET TO ORDER ADHESIVES AND GROUTS**

Grout colour is often forgotten when it comes to selecting tiles, but the grout colour you choose can dramatically change the look of a tile. We also have colour matching sealants available to help achieve a co-ordinated finish. See Page 142 for the full range.

- **SELECT YOUR TILE TRIMS**

Make the tile trims a design feature, by selecting a coloured metal trim that complements your brassware. See page 146 for the full range

Make sure the trim you select is suitable for your tile thickness. The icon  will show the tile thickness for each range.

Ego Nero

EGO, THE STRENGTH OF THE SELF AND OF THE PROJECT

A true expression of versatility and refined design. Ego recalls the typical aristocratic homes with coffered floors and ceilings, reinterpreted with a modern twist, whilst maintaining the refined perception of the composition, with matching colours.

Merida Wall

A NOD TO THE ERA OF ROMAN ANTIQUITY IN SOUTH WEST SPAIN

Merida is a beautiful city steeped in Roman architecture. The colours of the sand-lime block limestone is one of the essential components of “Roman concrete” that characterise the city landscape today, reflected in the creation of this beautifully eye-catching waved tile.

Merida

ENTHUSIASM FOR AUTHENTICITY

Inspired by the wonderful, historical architecture of the city of Merida in South-west Spain dating back to the era of Roman antiquity. The use of soft, natural colour tones that create a beautiful play of light and shadow epitomise the character of this historic city whilst providing a beautiful setting for your space.

Vis White

VIS is a “premium” collection as it encompasses the best technology currently available for tile production. With a thickness of only 6.5mm, this lightweight range is easy to install, even with the largest format option.

A NOBLE TOUCH

On the one hand, a clean and minimalist style, on the other, nuances of warm, enveloping tones of natural colours. Vis is a careful representation of stone surfaces and their colours. The ability to showcase the subtle pigments of light and shade of plaster and cement finishes whilst at the same time creating a pure neutral base of solid colour.

THE PRIMAL POWER OF THE NATURAL - A HOME ENVIRONMENT FOR THE HERE AND NOW

When the first rays of the morning sun touch the chalk and limestone cliffs of the coasts of the North and Baltic Seas, they awaken a fascinating colour scheme of beige and warm grey tones with nuances evolving from light to dark. URBANTONES takes inspiration from this play on light and reflects this radiance in its design. It offers a colour scheme that brings just the right amount of naturalness to modern interior designs dominated by clear forms.

Soft Colours

INSPIRED BY CRAFTSMANSHIP

Finely structured, artisanal textures and soft natural shades make up the special character of facades and interiors of historical Mediterranean buildings. The walls of these buildings were typically constructed from coloured lime plaster known as “Stucco Veneziano” which was applied by hand by master craftsmen; a traditional technique that has inspired the creation of the SOFT COLOURS range.

 **Lustrolite**[®]
HIGH GLOSS WALL PANELLING

Lustrolite[®]
HIGH GLOSS WALL PANELLING

Glass Effect Wall Panelling for kitchen and bathrooms

The award winning Lustrolite panel brings life to shower walls and kitchen splashbacks.

Lustrolite is an advanced multi-layer acrylic sheet that looks just like glass. Lustrolite applications include shower walls, bathrooms and kitchens.

Weighing less than a quarter of a traditional glass sheet, Lustrolite has 20 times the impact strength. The colour is permanently fused to the clear layer and cannot be separated by moisture. Its unique hard coated surface is highly resistant to typical shower and glass cleaners, and also offers a high-scratch resistance.

Effortless to install

Lustrolite is easy to work with and can be installed rapidly over new or existing wall finishes.

- Can be cut and drilled on site with standard wood working tools
- Typical panel install takes about a third of the time of tiling a wall
- Joints can be sealed with neutral cure silicone or specially designed profiles

Easy to maintain

Lustrolite is easy to clean using warm water and a soft microfibre cloth or chamois. Strong chemicals are not required.

- No grouting and less joints
- Non-stick surface will not promote mould, bacteria, soap or calcium build-up
- Highly resistant to typical shower and glass cleaners

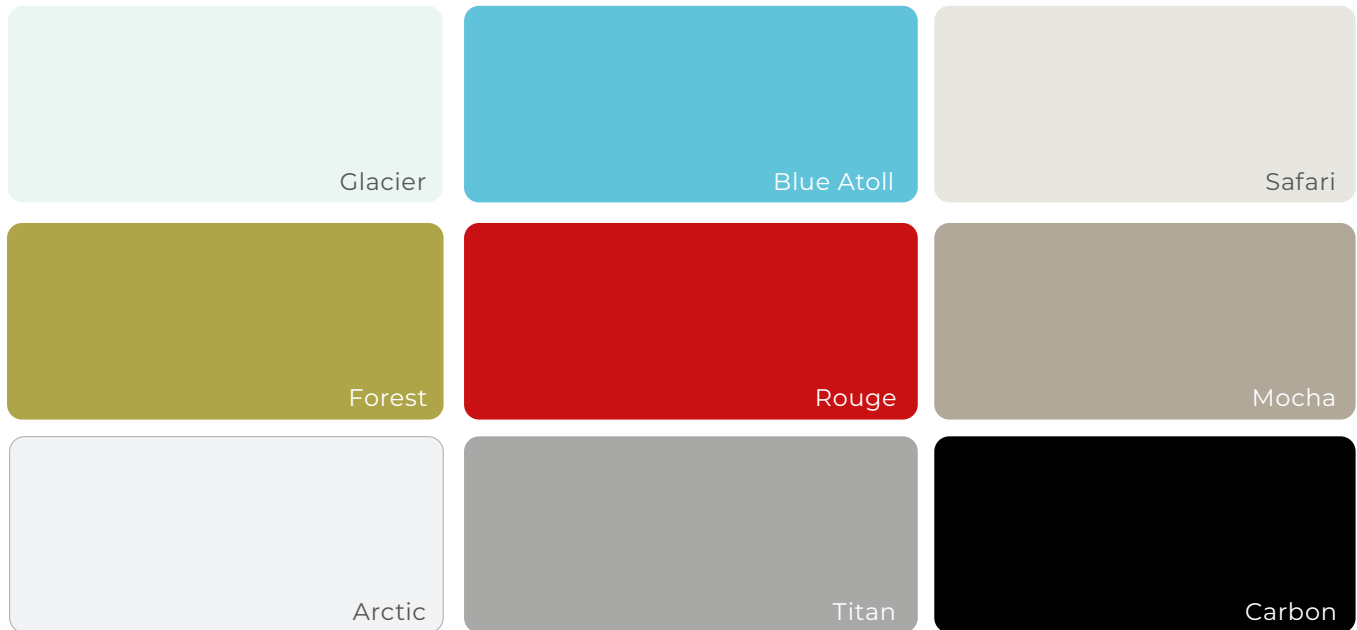

Luxurious & Elegant Finish

Each Lustrolite polymer panel is meticulously finished, perfectly smooth, and looks just like glass.

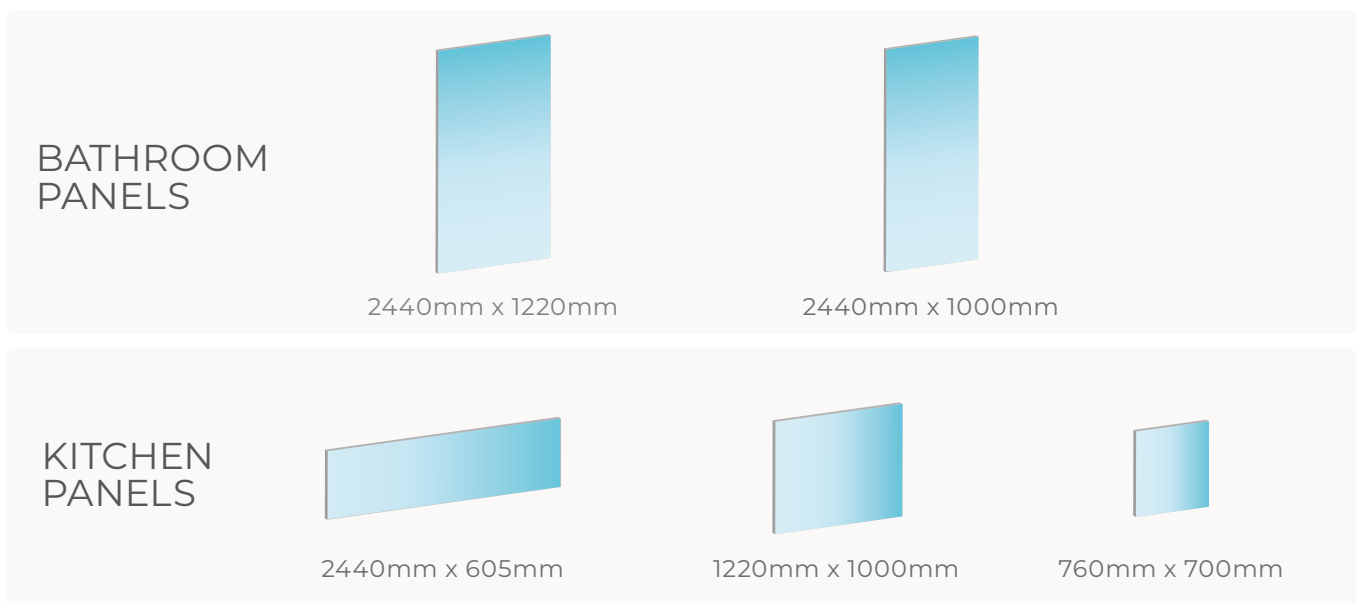

- High gloss lustrous surface
- Glass like depth of colour
- Will transform and add colour to any bathroom or kitchen

Colour range

Lustrolite is available in kitchen and bathroom specific sizes in all 9 high gloss colours

Sheet sizes

Accessories

Edge Profiles – Matt Aluminium or Colour Matched PVC

The four profiles (from left): Internal Corner, Straight Joint, External Corner, Edge Cap

Matt Aluminium (left) and Colour Matched PVC (right) Edge Profiles

WHY USE LUSTROLITE ACRYLIC PANELS?

HIGH-SCRATCH RESISTANCE

- ✓ Lustrolite has 6H scratch resistance, cured coating, similar to a smart phone
- ✓ Will not scratch or mark in every day residential and commercial use
- ✓ Tested to 20,000 cleans

FUSED COLOUR LAYER

- ✓ Does not dull/will not lose gloss
- ✓ Colour layer on the back over 20 times thicker than painted acrylic
- ✓ Nothing will show through panel after installation

HYGIENIC SURFACE

- ✓ Lustrolite surface will not allow growth of bacteria
- ✓ Good for hard water areas
- ✓ Easy to clean with any household cleaner or warm soapy water

COLOUR LAYER

- ✓ Colour layer will not be damaged during installation, will not chip off back when being cut or drilled
- ✓ Colour layer will not delaminate

FULLY WATERPROOF

- ✓ Lustrolite panels are fully waterproof and will not be affected by moisture

Scan the QR code for more installation advice including handy “how to” videos and instruction manuals.

Lustrolite kitchen panels*

*suitable for ceramic, electric or induction hobs. Panels are not to be used directly behind or adjacent to a heat source above a continuous service temperature of 77°C. When used behind electric, ceramic or induction hobs a clearance of at least 50mm is essential between the edge of the hob and the panel.

Lustrolite is NOT TO BE USED behind a gas hob (naked flame).

Please see page 134 for the gas hob installation options.

Visit your local bathroom retailer

Visit our website www.abacus-bathrooms.co.uk and go to the store locator tab. Find our retailers by inputting your postcode. To make things easy for you we have divided these into 3 categories:

You can be assured of a first-class user experience with a platinum retailer. Expect multiple Abacus display areas together with trained bathroom experts proficient in our product ranges.

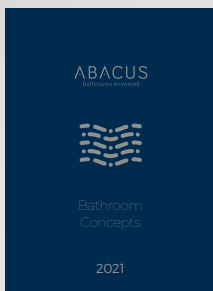

Our premium retailers offer an enhanced showroom experience with a varied range of Abacus display areas and trained bathroom experts.

These retailers have been installer trained in Elements Wet Room technology and have proven expertise. Get up close to the products with our 'Behind the tiles' display.

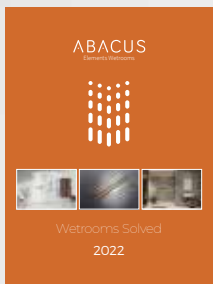

More bathroom inspiration from Abacus

Bathroom Concepts.

Developed alongside some of the world's most prestigious bathroom brands, our comprehensive product range offers stunning contemporary designs, twinned with market-leading guarantees, which will suit all bathroom needs.

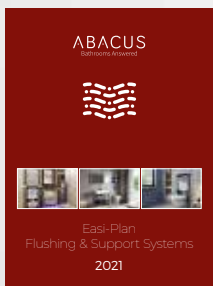

Our approach to completing a bathroom through both product and design innovations makes us one of the only companies to supply every product required in a bathroom from conception to completion.

Elements Wetrooms.

Our design-led approach manufacturing means that our Abacus Elements Wetroom products combine the ultimate strength with the utmost peace of mind. Elements range offers the most comprehensive range of wetroom and waterproofing products currently available. Comprising a large collection of wetroom trays with multiple choices of size and drain styles,

Elements also offers the complete solution from waterproofing bathroom walls and floors to wellness products and steam rooms, all backed with a 15-year guarantee.

Easi-Plan. Flushing & Support Systems.

Easi-plan is an ultra flexible range of concealed sanitaryware installation frames that allow the bathroom designer to design with flair and imagination with no need to compromise the installation quality.

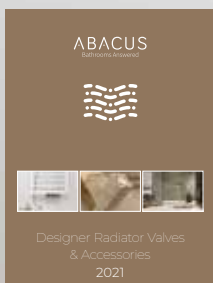

- The hidden frames cover all aspects of sanitaryware and brassware installation including WC's, basins and bidets. They create a pre-wall fixing system that eliminates the need for unsightly pipe boxing and exposed pipes.
- Easi-plan has been designed specifically for the UK market and its innovative design and installation features make this the future of bathroom design.

Elegance Towel Warmers & Radiators.

An extended range of towel warmers and radiators which will enhance the appearance of any room. Available in various finishes including Matt White, Matt Black, Terra Matt and Anthracite.

Abacus Towel Warmers come in a variety of shapes and sizes offering something for everyone.

Ultima. Designer Radiator Valves.

A comprehensive range of designer valves and accessories to accompany the Abacus Towel Warmers range. With now even more reason to accessorise with our brushed bronze, matt black, brushed nickel and black nickel valves along with the digital wall controller, a great alternative to thermostatic elements.
