LIFESHIELD™ GLASS PROTECTION FOR LIFE

MADE IN BRITAIN

the collection
by KUDOS

ultimate - Walk-in Shower Panels p4

The most comprehensive and versatile range of shower panels and fixings, the KUDOS **ultimate** collection provides almost limitless options for you to create your perfect walk-in enclosure.

pinnacle8 - Shower Doors & Enclosures p14

Reaching new heights in enclosure design, this stunning KUDOS **pinnacle8** collection of sliding and hinged doors represents high quality style, functionality and engineering.

original - Shower Doors & Enclosures p22

Offering a choice of recess & corner enclosures in straight, bowed & curved styles. With a variety of sliding, pivot and bi-fold door options, there is a KUDOS **original** enclosure to suit everyone.

infinite - Shower Doors & Enclosures p36

The stunning KUDOS **infinite** range offers a modern, minimalist look with design features that enhance & enrich the range. It is one of the most technically advanced showering enclosure systems available today.

Shower Trays p50

Made from the highest quality materials, the versatile **concept**, **Kstone** and **connect2** shower tray collections provide the perfect solution for your new KUDOS shower enclosure.

Wet Room Systems p62

Featuring both linear or central waste shower decks, the unique **aqua4ma** system by KUDOS uses extruded uPVC panels to provide a total watertight solution for floors and walls.

Bath Screens p74

With KUDOS **inspire** bath screens you get the best of both worlds... indulge yourself in a relaxing bath or enjoy an invigorating shower without compromising on style or performance.

ultimate
by KUDOS

KUDOS **ultimate** Shower Panels offer the ultimate in choice and versatility.

The extensive range of toughened safety glass panels are available in both 8 & 10mm glass as well as two sizes of stunning 8mm curved glass options. With ultimate you can create a showering area to suit virtually any situation and with a choice of fixings, you are certain to find the solution needed to create your perfect shower.

Suitable for shower trays as well as tiled wet-floors, KUDOS **ultimate** also offer fixed or hinged retro-fit Deflector Panels.

All ultimate products are covered by the KUDOS Lifetime Guarantee‡ for complete peace of mind.

Key features are:

- Extensive range of Panel sizes in both 8 & 10mm
- Option of two sizes of stunning 8mm curved glass Panels
- Crystal clear corner seal to join glass to glass
- Suitable for fitting to shower trays or directly onto wet-floors
- Optional retro-fit Deflector Panels
- Overall 1985mm high including fittings
- Choice of high quality fixings to suit all situations
- Lifeshield™ easy-clean glass protection
- Lifetime guarantee*

LIFETIME GUARANTEE*

LIFESHIELD™ GLASS PROTECTION FOR LIFE

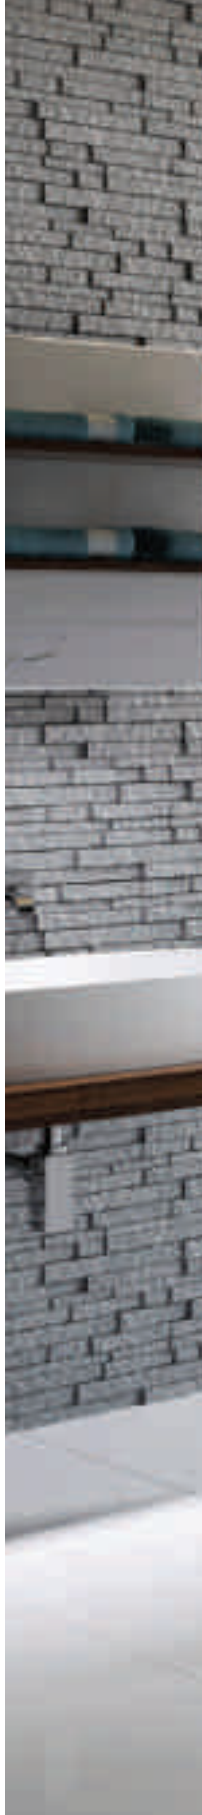
MADE IN BRITAIN

*Guarantee applies to material and manufacturing defects only. See website for full Terms and Conditions.

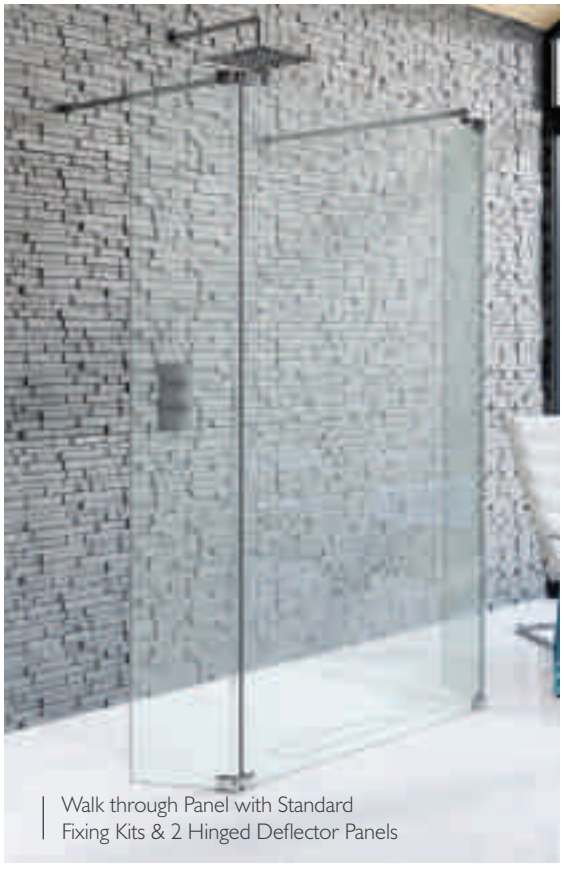
Three Sided Enclosure

Recess Enclosure with Standard Fixing Kit

Curved Glass Corner Enclosure Package c/w Concept Tray



Corner Enclosure with Standard Fixing Kits

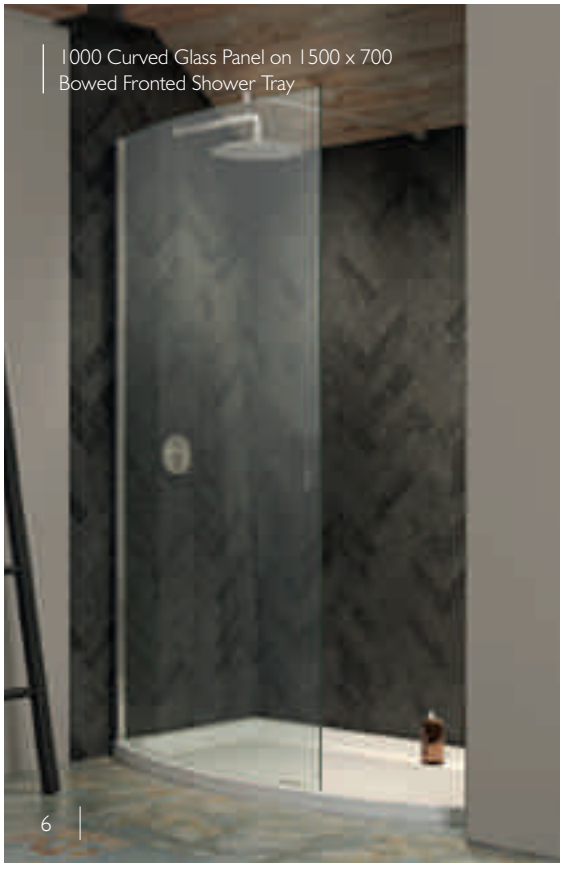


Walk through Panel with Standard
Fixing Kits & 2 Hinged Deflector Panels

Recess Enclosure with Standard Fixing Kit

ultimate
Flat Glass Options

The **ultimate** system offers 11 panel sizes in a choice of either 8 or 10mm and can be configured to suit virtually any situation.



1000 Curved Glass Panel on 1500 x 700
Bowed Fronted Shower Tray

1500 x 700 Curved Glass Corner Enclosure
Package comes with Concept Tray

ultimate
Curved Glass Options

In addition to the extensive range of flat panels the **ultimate** collection also offers two sizes of curved Panels. These 1000mm & 1200mm 8mm toughened safety glass Panels are suitable for both corner and recess configurations.

Designed to fit a dedicated bowed fronted **concept** tray which is supplied in the curved Panel packages. Panels may be purchased separately but unless the wet floor area is shaped to match the curve of the screen drainage may be impaired.

Three Sided Enclosure with Standard Fixing Kits on Kstone Tray

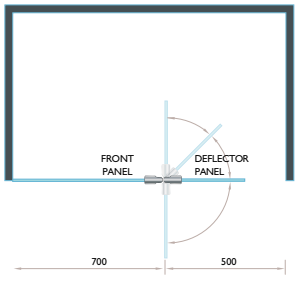
ultimate
Deflector Panels

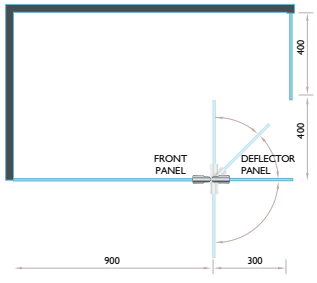
Designed to contain overspray and splashing within your designated showering area, the **ultimate** system offers a choice of either fixed or hinged deflector panels. These can be retro-fitted so only need to be purchased if found necessary.

Enjoy the pleasure and appearance of a walk-in shower even where space is at a premium. With the ability to fit a Deflector Panel it is now possible to create a functional and stunning enclosure even in the smallest spaces.

Hinged Deflector Panel

Example of Hinged Deflector Panel fitted in recess. Hinged Deflectors can be fitted with either Standard, Ceiling or Corner stabilising bars.

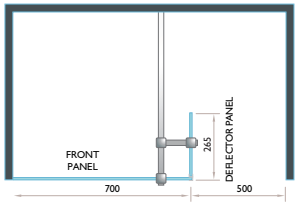




In a corner installation a longer front panel can be fitted with a shorter side panel maintaining access of 500mm whilst the hinged Deflector Panel will contain any overspray.

Fixed Deflector Panel

The fixed Deflector Panel is supplied with fittings to connect to standard stabilising bars only. *N.B. This product cannot be used with ceiling or angled stabilising bars.*



Walk Through Panel with 2 Hinged Deflector Panels

Fixed Deflector Panels are supplied with fittings to connect to both recess or corner configurations

700 Flat Glass Panel with 300 LH Hinged Deflector Panel on a 1200 x 800 shower tray

ultimate
Configurations

The variety of panels sizes, fitting options and the ability to join glass to glass with our unique crystal clear corner seal, means that with **ultimate** you can create virtually any configuration in an almost limitless range of sizes. Shown below are the most typical installation styles with a list of items required to create each option.

Recess

1 x Glass Panel
1 x Wall Post
1 x Front Panel Fixing Kit*

*Standard, Ceiling or Angled

Corner

1 x Glass Panel (Front)
1 x Glass Panel (Side)
2 x Wall Posts
1 x Front Panel Fixing Kit*
1 x Side Panel Fixing Kit*

*Standard, Ceiling or Angled

Corner (Glass to glass)

1 x Glass Panel (Front)
1 x Glass Panel (Side)
1 x Wall Post
1 x Front Panel Fixing Kit*
1 x Corner Seal

*Standard or Ceiling only

Walk Through

1 x Glass Panel
2 x Front Panel Fixing Kits*

*Standard or Ceiling only

Open Ended

1 x Glass Panel
1 x Wall Post

Complete Packages - Flat Glass

ultimate packages offer a simple way to order the two most popular configurations as a complete package including a KUDOS **Kstone** tray. See pages 58-59 for tray information.

Recess Package includes:
1 x Glass Panel
1 x Wall Post
1 x Front Panel Fixing Kit
1 x Kstone Shower Tray
1 x Hi-Flow 90mm Waste

Corner Package includes:
1 x Glass Panel (Front)
1 x Glass Panel (Side)
2 x Wall Posts
1 x Front Panel Fixing Kit
1 x Side Panel Fixing Kit
1 x Kstone Shower Tray
1 x Hi-Flow 90mm Waste

Note: * In order to maintain 500mm access a 700mm panel is supplied to suit a 1200mm tray. Given the limited spray protection, a deflector panel may be required.

connect**2** is a revolutionary tray, designed to eliminate the need to avoid joists by raising the tray on a plinth, allowing you to keep that super slim look. Full information available on our website.

Super slim tray

pinnacle8 by KUDOS

pinnacle8 is a range of enclosures and represents new heights in shower design. Featuring 8mm toughened safety glass throughout and treated with Lifeshield™ protective coating for easy cleaning, all products are 2000mm high and covered by a lifetime guarantee against material or manufacturing defects for your complete peace of mind.

The **pinnacle8** collection features Hinged and Sliding Door options to suit both recess and corner installations in sizes ranging from 760mm to 1800mm so there is sure to be a solution to suit you. With concealed fixings throughout, these stylish minimalist doors are both easy to install and stunning to look at.

Key features are:

- Hinged and sliding options
- 8mm toughened safety glass
- Simple and fast to install
- 2000mm high
- Concealed fixings
- Slimline profile with 20mm wall adjustment
- Lifetime Guarantee*
- Lifeshield™ Glass Protection

We recommend the use of a KUDOS **Kstone** Shower Tray or a **connect2** Shower Tray with our **pinnacle8** enclosures & doors. Details and prices of trays are available on pages 58-61.

original
by KUDOS

Often imitated, seldom matched but never surpassed, KUDOS **original** doors and enclosures have set the standard in showering excellence, with superb engineering, design and unbeatable value for money being the hallmark of the brand.

Offering a choice of recess and corner enclosures in straight, bowed and curved styles as well as a variety of sliding, pivot and bi-fold door options, there is a KUDOS **original** enclosure to suit everyone.

Key features are:

- Nylok™ frame levelling system
- Concealed wall post fixings
- Adjustment for out-of-true walls
- Highly polished metal finish
- Suitable for use with power showers†
- Toughened safety glass with Lifeshield™ protection
- KUDOS Sliding Doors feature stainless steel roller bearings for ultra smooth action
- KUDOS Pivot Doors feature Nylok™ and stainless steel pivot mechanism with individual adjustment for precise door closure
- Lifetime Guarantee*

All KUDOS **original** bowed and curved trays fit on dedicated KUDOS **concept** trays. Details and prices of trays are available on pages 60-61.

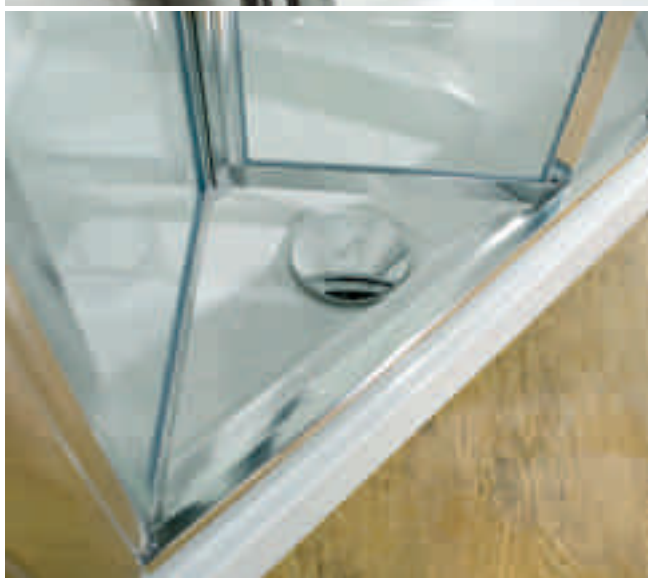
LIFETIME GUARANTEE*

HIGH PERFORMANCE

LIFESHIELD™ GLASS PROTECTION FOR LIFE

MADE IN BRITAIN

* Guarantee applies to material and manufacturing defects only.
† Assuming shower head is positioned appropriately for normal shower use.
See website for full Terms and Conditions.



910 Curved Enclosure with Side Access Sliding Door

original
Straight Sliding Doors and Enclosures

The KUDOS **original** Sliding Doors can be used in a recess or to create a corner enclosure with the addition of a side panel.

All KUDOS Sliding Doors feature a release mechanism for easy cleaning.

- **6mm toughened safety glass on Straight Sliding Doors, 5mm on Corner Sliding Doors both with Lifeshield™ protection**
- **Sliding panel release mechanism for easy cleaning**
- **Stainless steel roller bearings for smooth opening action**
- **Left or right hand opening**
- **Generous 1850mm door height**

1200 Straight Sliding Door with 800 Side Panel

For full technical details on this product, see pages 32-35. We recommend the use of a KUDOS **Kstone** shower tray with **original** Straight Sliding Doors and Enclosures. Details and prices of corresponding tray sizes are available on pages 58-59.

1200 Bowed Sliding Door with 700 Special Side Panel

original
Bowed Sliding Doors and Enclosures

Spacious and comfortable showering is guaranteed with a KUDOS Bowed Sliding Door Enclosure. Whilst requiring only 700mm of end wall space, these enclosures provide extra space just where you need it and make a perfect replacement for a standard bath.

- 5mm toughened safety glass with Lifeshield™ protection
- Sliding panel release mechanism for easy cleaning
- Stainless steel roller bearings for smooth opening action
- Left or right hand opening
- Generous 1850mm door height

All Original Doors and Panels can be extended in increments of 15mm with a door or panel extension post.

1000 Offset Curved Enclosure with Side Access

original
Offset Curved Corner Enclosures with Sliding Doors

With all the features of the Curved Corner Enclosure, these ingenious products provide ideal space saving solutions whilst offering deceptively large showering areas. Requiring just 658mm along its short edge, the 1000 offset can be easily accommodated in most bathrooms even where a door or window restricts available wall space. Extending out to 795mm and measuring up to 985mm at the widest point, this offset enclosure provides the comfort of a large enclosure in a relatively small space and is available in either centre or side access for maximum versatility.

The 1200 Offset requires wall space of just 1165 x 728mm whilst the 1270 Offset requires 1185 x 819mm. Both versions are available in side access only and can be fitted to open either left or right hand.

- **5mm toughened safety glass with Lifeshield™ protection**
- **Sliding panel release mechanism for easy cleaning**
- **Stainless steel roller bearings for smooth opening action**
- **Left or right hand opening**
- **Generous 1850mm door height**

infinite
by KUDOS

The stunning KUDOS **infinite** range offers a modern, minimalist look with many design features that improve, enhance and enrich the range, making it one of the most technically advanced showering enclosure systems available today.

A choice of sliding, hinged or centre-folding doors and enclosures in sizes ranging from 760 up to 1700. All KUDOS **infinite** doors have the versatility to fit in a recess or with the addition of one or two KUDOS side panels, will create two or three sided enclosures. This gives a range of options to suit even the most adventurous interior designer.

Key features are:

+ Crystal clear, glass to glass seals
+ Chrome effect wall sections
+ Chrome plated, cast metal corner joints
+ Unique three dimensional adjustment system
+ Concealed fixings
+ Suitable for use with power showers†
+ 6-8mm toughened safety glass with Lifeshield™
+ Lifetime Guarantee*

All KUDOS **infinite** bowed and curved trays fit on dedicated KUDOS **concept** trays. Details and prices of trays are available on pages 60-61.

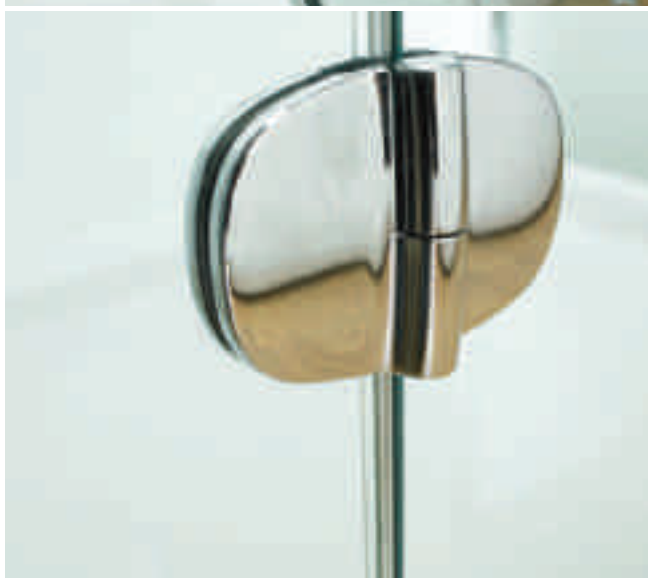
LIFETIME GUARANTEE*

HIGH PERFORMANCE

LIFESHIELD™ GLASS PROTECTION FOR LIFE

MADE IN BRITAIN

*Guarantee applies to material and manufacturing defects only. See website for full Terms and Conditions. †Assuming shower head is positioned appropriately for normal shower use.



1200 Straight Hinged Door with 2 x 900 Side Panels

infinite
Centre-folding Doors and Enclosures

Whether a small or large showering area, the **infinite** Centre-folding Doors and Enclosures offer luxury without compromise. Practical space saving, spacious accessibility and style are all built in as standard.

Concealed, adjustable magnets enable the user to set the strength of the door closure to their personal preference. Whether recessed, corner or three-sided, the **infinite** Centre-folding range brings a new dimension to showering luxury.

- 8mm toughened safety glass with Lifeshield™ protection
- Unique three dimensional adjustment for out-of-true walls
- Chrome plated cast metal hinges
- Generous 1900mm door height
- Left or Right hand opening

1000 x 1000	DC100W	£227
Peninsula	DPEN129W	£293

1200 Offset Curved Enclosure with Side Access

infinite
Offset Curved Corner Enclosures with Sliding Doors

With all the same features as the standard **infinite** Curved Corner Enclosure, the KUDOS Offset Curved Corner Enclosure provides greater versatility by shortening the length of one side whilst increasing the length of the other.

This helps overcome space issues caused by door or window locations. Available as 1000 x 810 or 1200 x 910, the required wall space on the short side is only 655mm and 724mm respectively. Both available in a choice of single door side access or 2 door centre access.

- **6mm toughened safety glass with Lifeshield™ protection**
- **Three-dimensional adjustment**
- **Stainless Steel roller bearings for smooth opening action**
- **Left or right hand opening**
- **Generous 1900mm door height**

infinite
Bowed Sliding Doors and Enclosures

Sheer indulgence is the best way to describe the **infinite** Bowed Sliding Door Enclosure. Choose from 1200, 1500 or 1700 width options, each of which tapers to 700mm at each end.

Never before has it been possible to create such a large enclosure in such a relatively small space. The 1700 version will fit in the same space as a standard bath and provide you with a showering area you could have only dreamed about.

All Bowed Sliding Doors can be fitted between two walls (recessed) or with either one or two special 700 side panels to create a corner or three-sided enclosure.

- **6mm toughened safety glass with Lifeshield™ protection**
- **Three-dimensional adjustment**
- **Stainless Steel roller bearings for smooth opening action**
- **Left or right hand opening**
- **Generous 1900mm door height**

shower trays

by KUDOS

The shower tray is the most important element of any shower enclosure. The choice you make is critical to the long term performance of your shower installation.

KUDOS shower trays are made from the highest quality materials, including an acrylic capped skin which provides a superb high gloss finish that is durable as well as being resistant to impact damage and staining whilst the structural resin bonded stone filler provides incredible stability.

Whether you choose a KUDOS Kstone tray or the uniquely designed KUDOS connect2 tray, you can be assured that you are building your dream shower on a solid foundation with a British made product that is guaranteed for life.

By installing KUDOS trays with the Flexi-Seal sealing strip you further protect against hidden leaks between the tray edge and adjacent walls. See Page 58.

For increased safety and confidence all KUDOS shower trays are now available with an optional KAMBA anti slip coating.

Considered the leading anti-slip finish in the UK KAMBA is available exclusively on KUDOS Kstone and connect2 trays.

Key features are:

+ Durable acrylic capped ABS skin
+ Superior high gloss finish
+ High resistance to impact damage
+ Structural resin bonded stone filler for increased stability
+ Optional KAMBA anti-slip coating
+ Lifetime Guarantee*

connect2 shower tray with KAMBA anti-slip coating

KAMBA Anti-Slip Coating

Exclusively available on Kstone and connect2 shower trays

safe and confident showering for all

KAMBA is considered the leading anti-slip surface coating material in the UK and is exclusively available on KUDOS connect2 and Kstone trays.

Creating an invisible textured surface which offers unparalleled anti-slip properties. Providing everyone a safer environment to shower in, ensuring a feeling of security and confidence.

Exclusively available from KUDOS Shower Products, the UK's leading supplier of shower enclosures and trays, KAMBA anti-slip coating is manufactured in Germany, is compliant with DIN 51097 for barefoot areas and is TUV tested and appropriately certified at the highest anti-slip rating class 'C'.

+ **An invisible textured surface with unparalleled anti-slip properties**
+ **Exclusively available on KUDOS Kstone and connect2 shower trays**
+ **Conforms to the highest European quality standards. Class 'C' slip resistance.**

"My son and his wife installed a KUDOS shower tray with KAMBA Anti-Slip Coating for their young children - they were very impressed. So much so that when I remodelled my bathroom I was encouraged to have the same KUDOS shower tray. My independence and confidence are so important to me."

Mrs Anna Smithson, Solihull.

Available on all connect2 trays

Available on all Kstone trays

connect2 by KUDOS

a revolution in shower tray design

Developed and manufactured in the UK by KUDOS, the UK's leading supplier of innovative showering solutions. The stunning looking connect2 is a uniquely designed shower tray featuring two offset waste positions that ensures an obstruction free connection.

Key features are:

- Unique design avoids the need to cut joists or lift the tray on a plinth - please see page 54 for more information
- Guaranteed to work with all standard joist sizes and spans*
- High gloss acrylic capped ABS skin for greater durability and resistance to impact damage or staining
- Structural resin bonded stone filler for increased stability
- Super-slim - only 35mm high
- All connect2 trays are supplied with reinforced magnetic waste cover, blanking plug and a dedicated high flow waste rated to 35 litres per minute
- Covered by the KUDOS Lifetime Guarantee
- Optional KAMBA anti-slip coating
- Reinforced, colour matched cover is magnetically secured and comfortable to step on, plus easily removed for cleaning

*With a connect2 tray the ability to connect to at least one of the waste holes is guaranteed provided that the span between joists is no less than 305mm and the joist width does not exceed 75mm.

flexi-seal Flexible Waterproof Seal

also available with KAMBA Anti-Slip Coating

We recommend the use of Flexi-Seal when installing KUDOS shower trays. For further information about Flexi-Seal see page 58 and for KAMBA see opposite.

connect2 by KUDOS

The attractive low profile connect2 tray will never let a joist get in your way again thanks to the unique offset dual waste outlet. Whether square, rectangular or the new quadrant - whatever the size, the connect2 tray will allow you to connect the waste fitting without the need to reposition joists or raise the tray onto a plinth.

connect2 shower trays are available in a range of sizes. See page 59 for details and prices.

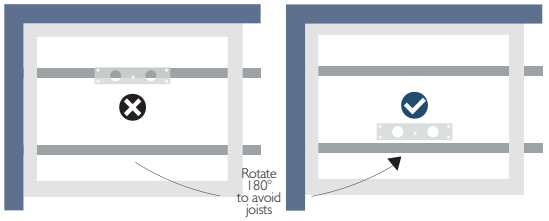
The unique design of the connect2 tray ensures obstruction free waste connection irrespective of joist position or direction.

connect2 trays are supplied with a high flow waste and a blanking plug secured with solvent weld (not supplied) to block the unused waste hole.

connect2 trays are supplied with a stylish colour matched linear waste cover, magnetically secured and reinforced for comfort and stability underfoot.

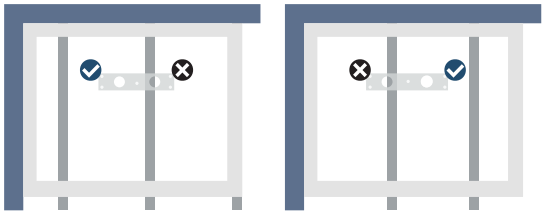
Waste connection on square and rectangular trays

Joists running length of tray



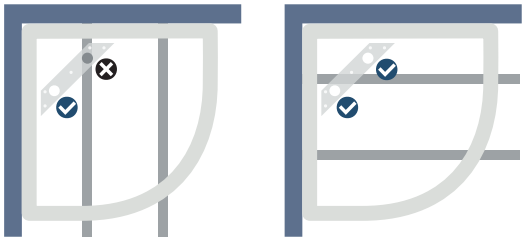
Where joists run parallel to the length of the tray and both holes are obstructed, simply turn the tray 180°. The unique offset position will ensure both will become free.

Joists running width of tray



Where joists run parallel to the width of the tray, at least one hole will always be clear.

Waste connection on corner trays



The innovative connect2 corner waste design allows connection to at least one of the waste locations irrespective of the direction and position of the joists.

connect2
by KUDOS

make joist obstructions a problem of the past

Avoids the need for a raised plinth

With connect2, low level installation is always maintained

Kstone
by KUDOS

Manufactured in our own UK factories and covered by a lifetime guarantee, Kstone trays are made from the highest quality materials. These include an acrylic capped ABS skin, which provides a superb high gloss finish, that is durable as well as being resistant to impact damage and staining. The structural resin bonded stone filler provides incredible stability.

Kstone shower trays are available in rectangular, square, quadrant and offset quadrant shapes - in a wide range of sizes. Please see page 59 for technical information and prices.

Key features are:

- High-gloss acrylic capped ABS skin for durability and resistance to impact damage
- Structured resin bonded stone filler for increased stability
- 45mm high
- Suitable for 90mm waste (supplied separately)
- Available in a vast selection of sizes and shapes to meet the requirements of any bathroom or shower room setting. See page 59 for all details.
- Covered by the KUDOS Lifetime Guarantee

flexi-seal Flexible Waterproof Seal

also available with KAMBA Anti-Slip Coating

We recommend the use of Flexi-Seal when installing KUDOS shower trays. For further information about Flexi-Seal see page 58 and for KAMBA see page 52.

Flexi-Seal

Always use KUDOS Flexi-Seal when installing connect2 and Kstone shower trays.

Flexi-Seal uses a combination of durable flexible rubber with a waterproof butyl based adhesive to give maximum protection between the application surface and tiles or panels.

As the rubber is flexible, it will maintain a watertight seal whilst allowing for a certain amount of movement that is inevitable, particularly with new builds.

Flexi-Seal fits between the edge of the tray and any abutting wall. It provides a flexible seal behind the tiles avoiding any issues caused by potential grout or silicone failure.

connect2 with Flexi-Seal

Product	Size m	Code	Price inc. VAT
Flexi-Seal	2m	KFS2	£26
Flexi-Seal	3m	KFS3	£40
Flexi-Seal	4m	KFS4	£53

Cleaning

To maintain the condition of your KUDOS product we advise you to please follow our Care and Cleaning instructions below:Use only warm soapy water and a damp cloth/sponge on a regular basis. Rinse with clean water to remove any residue.

Do not use abrasive scouring powders, chemicals or aerosol cleaners - these may result in damage to the surfaces.

Trays with KAMBA anti-slip coating must be regularly cleaned with warm soapy water using a nylon brush. If hair colourants or tanning lotions are used, the surface of the tray must be thoroughly rinsed with clean water and a nylon brush before allowing to dry to avoid staining.

KUDOS Products

Offset quadrant shower trays

Please be aware that Offset Quad trays are handed. When ordering please suffix code with LH or RH.

Product Availability

KUDOS products are available from specialist bathroom retailers and plumbers merchants. For full details of your nearest stockist please refer to www.kudosshowers.co.uk

concept
by KUDOS

Created specially for use with uniquely shaped KUDOS enclosures **concept** shower trays feature a stable structural resin bonded stone backing and a durable acrylic-capped ABS skin that provides a superior high-gloss finish with a high resistance to damage and staining.

Key features are:

- 55mm high
- Durable acrylic capped ABS skin
- Superior high gloss finish
- High resistance to impact damage
- Stable resin-bonded stone backing
- Requires 90mm waste
- Lifetime Guarantee*

flexi-seal Flexible Waterproof Seal

We recommend Flexi-Seal in the installation of concept trays

Flexi-Seal - Flexible Waterproof Seal

Flexi-Seal uses a combination of a durable flexible rubber with a waterproof butyl based adhesive to give maximum protection between the application surface and tiles or panels.

Since the rubber is flexible, it will maintain a watertight seal whilst allowing for a certain amount of movement that is inevitable, particularly with new builds.

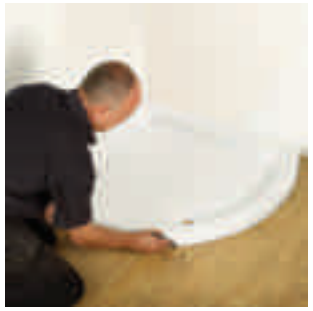
LIFETIME GUARANTEE*

MADE IN BRITAIN

* Guarantee applies to material and manufacturing defects only. See website for full Terms, Conditions and fitting instructions.

The KUDOS Plinth makes fitting a **concept** shower tray easier and faster than ever.

The unique design consists of a dedicated steel frame on adjustable feet for easy and precise levelling. It also features a quality baseboard for a solid foundation. It's perfectly simple and straightforward to use and allows the tray to be elevated from 110mm to 130mm, giving easy access to plumbing. To enable you to achieve the perfect finish in a fraction of the time. KUDOS easy fit plinths for curved or bowed trays are supplied with a moulded panel for a professional and stylish finish.



1. Use shower base as template

2. Adjustable steel frame for levelling and easy plumbing

3. Easy fit baseboard for total support, providing easy access to waste connection

4. Plinths are available to suit all **concept** trays.

Moulded fascia panels fit under the tray when plinth height set at 110mm, a surface mounted, flexible, flat panel is available where it is necessary to raise the plinth higher than 110mm.

aqua4ma
wet room systems
by KUDOS

There is no doubt that a fully tiled wet-floor extending into the shower area creates a stunning look, but appearances can be deceptive and its what's lying beneath the surface that counts.

With **aqua4ma** by KUDOS you can create the perfect wet-room with the comfort of knowing that the elements you cannot see, but need to rely on, have been designed by one to the UK's leading manufacturers of high quality showering products with the added comfort of a lifetime guarantee against material or manufacturing defects.

Choose between the versatile **aqua4ma central**, suitable for both tiled and vinyl floor covering, or **aqua4ma linear** with its stylish tiled drain cover.

Both systems utilize the patented **aqua4ma** in-floor galvanized steel tray and a pre-shaped extruded uPVC shower deck which is waterproof and safe to walk on even before tiling and can be fitted to both wooden and solid floors.

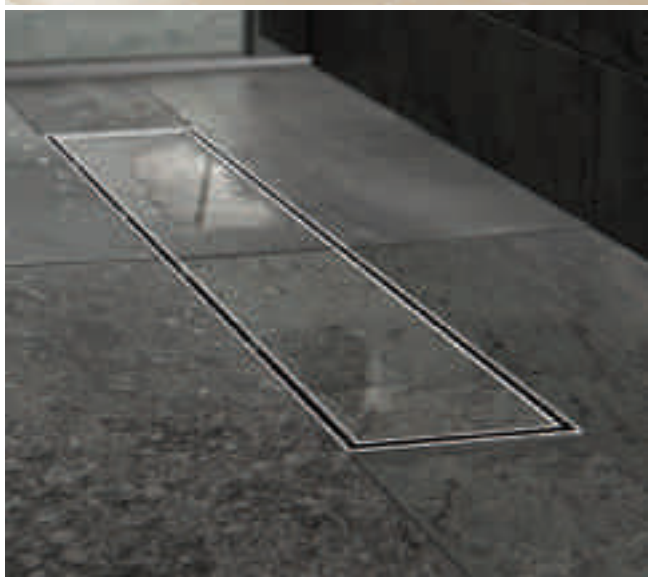
Additional uPVC floor and wall panels can be added to create a complete wet-floor or total wet-room solution. Joints are solvent welded together to form a solid structure which is guaranteed waterproof for life*.

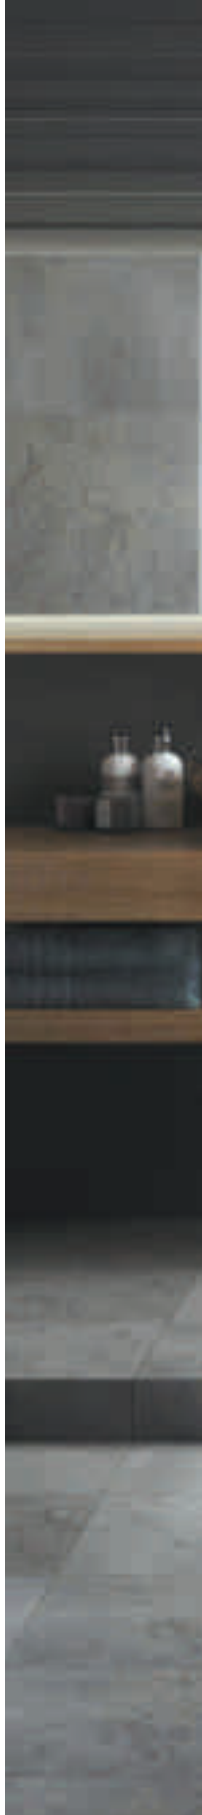
Floor and wall panels can be screwed directly to wooden floors or bonded to solid floors with a cement based flexible tile adhesive. The uPVC panels self seal around screws so no further treatment is required and the system is ready to tile within minutes of fitting. Longevity is ensured as unlike other systems the robust nature of **aqua4ma** panels allow for the removal and replacement of tiles without compromising the waterproof integrity of the system.

LIFETIME GUARANTEE*

MADE IN BRITAIN

*Guarantee applies to material and manufacturing defects only. See website for full Terms and Conditions.





aqua4ma linear
by KUDOS

As a home-owner you will appreciate the new **aqua4ma linear** Shower Deck for its high performance as well as its modern, sleek and stylish appearance.

As an installer you will not only appreciate the versatility, ease and speed of fitting the new **aqua4ma linear** Shower Deck, you will also enjoy the comfort of knowing that you are providing your customers with a product guaranteed for life* and backed by a trusted British manufacturer.

Key features are:

- Ultra-low level 19mm shower deck
- Fits to existing finished floor or to false floor created at joist level
- Deck size: 1185mm x 900mm, easily extended
- Simple and quick to install with no drying times
- Installation allows for avoidance of joist location
- Suitable for both wooden and solid floors
- Waterproof and safe to walk on even before tiling
- Stylish tiled drain insert
- Easy to tile with no angled cuts required
- Suitable for large and small tile formats
- Discharge rate up to 37 litres per minute

*Guarantee applies to material and manufacturing defects only.
See website for full Terms and Conditions.

...as versatile as you need

Standard: 19mm above existing floor level

aqua4ma linear Shower Deck mounted on top of existing floor level.

19mm aqua4ma Panels can then be used to extend the waterproof area to the same height of the shower deck.

Standard: 10mm above existing floor level

Flooring removed to size of aqua4ma Shower Deck, create a false floor at joist level, add plywood panel to lift shower deck 10mm above existing floor level to allow joining to aqua4ma Floor Panels. Then use aqua4ma 10 mm Panels to waterproof all or part of the floor to the same height as the shower deck.

Ultra-Low: 19mm above joist level

Flooring removed to size of shower deck and false floor created at joist level.

aqua4ma linear Shower Deck fitted.

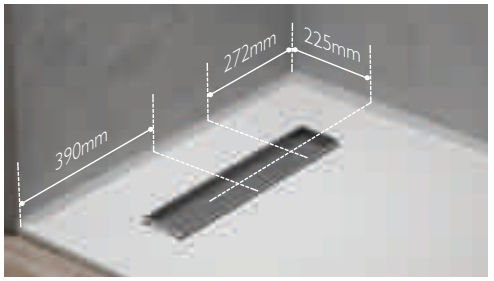
Ultra-Low: 19mm above joist level

(Additional waterproof floor area at same level) Flooring removed to desired area and false floor created at joist level.

aqua4ma linear Shower Deck and 19mm floor panels fitted within the removed floor area.

The aqua**4**ma linear kit

Installing over joists



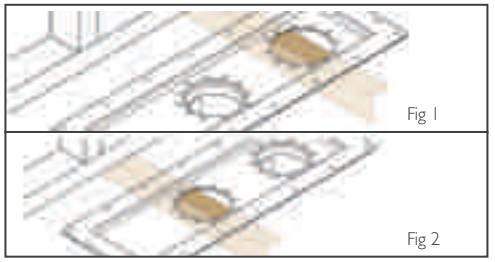


Fig 1

Fig 2

aqua4ma linear has two waste hole positions (Fig1 & 2).

If joists run along the length of the deck, you simply choose the position that will avoid them.

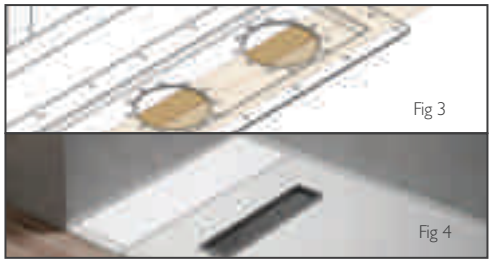

Fig 3

Fig 4

Should joists run across the deck (Fig 3) and obstruct the waste location, a wedge shaped extension panel is available (Fig 4).

This 250mm trim-to-fit panel solvent welds to the base so it can be moved away from the obstructing joist whilst maintaining the fall to ensure efficient drainage.

Width Extension Panels

The aqua**4**ma linear Shower Deck comes in a standard size of 1185mm x 900mm. This can be extended with the addition of the 300mm width extension pack.

Two sections of aqua**4**ma panelling each150mm wide are shaped to match the falls of the shower deck and can be trimmed to suit the size required.

Installing aqua**4**ma linear

aqua**4**ma's incredible versatility ensures you can create a wet room to suit your needs. How you install the aqua**4**ma Skirting, Floor and Wall Panels is only limited by the type of installation you want to make. The aqua**4**ma linear system can be installed on its own to provide a low-level shower deck or in conjunction with aqua**4**ma Floor / Wall Panels to create a larger, totally watertight area.

Wet Area

Shower Deck Kit & Skirting installation

This installation incorporates the aqua**4**ma linear Shower Deck Kit plus Skirting to the showering area only.

Remaining floor area must be built up to the same level as aqua**4**ma Base.

Wet Floor

Floor & Skirting installation

Entire floor is covered using the appropriate aqua**4**ma Panels. The walls are fitted with aqua**4**ma Skirting Panels.

Wet Room

Shower Area installation

Entire floor plus walls within the shower area are covered using the appropriate aqua**4**ma Panels.

The remainder of the walls are fitted with aqua**4**ma Skirting Panels.

aqua4ma linear

Carry-Out Pack

aqua4ma linear is not only simple and straightforward to install, we have also made the purchasing process easier with our handy carry out packs. Our most popular sizes are now available in pre-packed boxes that will provide you with everything needed to install a 3 or 4m² wet room area right away.

Each complete pack contains:

- 1185mm x 900mm Linear Shower Deck
- aqua4ma Panels either 19mm (standard level) or 10mm (low level)
- Skirting panels
- Length extension to help avoid joists
- Waste kit
- Grabber and solvent weld
- 1185mm x 900mm x 10mm plywood panel (low level only)

4m² - Standard level

4m² - Low level

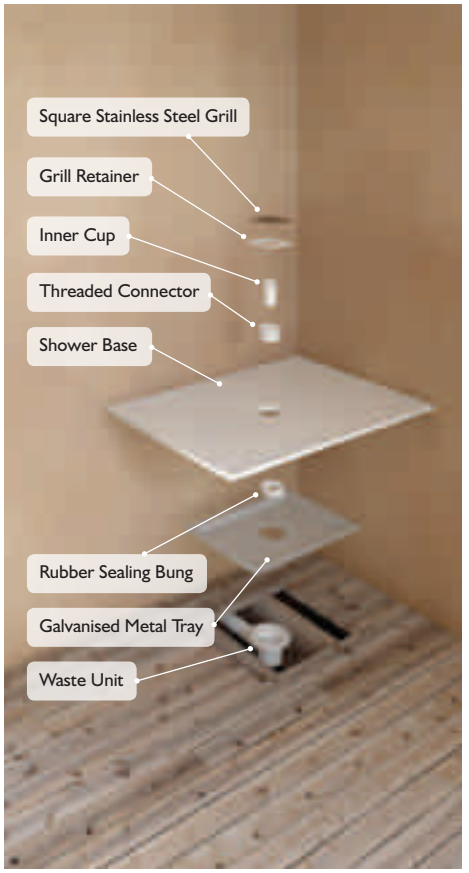
aqua4ma central
by KUDOS

With a choice of deck sizes and suitability for both tile and vinyl flooring the **aqua4ma central** system is versatile and suitable for virtually any situation. The 5 standard deck sizes can be trimmed to suit exact requirements and tiling is made easy with the tiling guide printed on the shower deck panel.

Key features are:

- Quick and easy to install
- Suitable for use on timber or solid wall/floor areas
- Minimal joinery required
- No need to reduce height of floor joists or cut floorboards flush with adjoining wall
- Suitable for standard 18mm and 22mm flooring
- No taping or wet trades required so no drying time to factor in
- Suitable for tile or vinyl flooring options
- Suitable for use with underfloor heating
- Easy replacement of damaged tiles without compromising the integrity of the system
- Fixing screws can be simply driven through the panels (no washers or taping required)

aqua4ma central shower tray pack



The aqua4ma central Shower Tray Pack includes all the elements needed to provide a strong, safe, reliable and watertight showering base.
Each pack consists of:

Shower Base
The uPVC Pre-formed base allows water drainage down all 4 sides to the integrated waste. No pre-treatment is required as all bases are manufactured with a rough textured finish to give an excellent key for tile and vinyl adhesives.

Galvanised Metal Tray
Strong galvanised tray to accept shower base and is screw fixed to joists and floorboards.

Waste Unit
Tiled waste option and vinyl waste option available. Specifically designed by McAlpine, the waste unit fixes to the underside of the metal tray and can be rotated through 15° increments to assist in plumbing work. The top access trap has a removable dip tube for easy cleaning. Standard 50mm water seal designed to take 50mm/2" solvent weld waste pipe (not supplied). Flow rates based on 15mm head of water:
Tiled option - 37 litres/min
Vinyl option - 33 litres/min.

Grabber adhesive
Used to bond shower base to metal tray during installation.

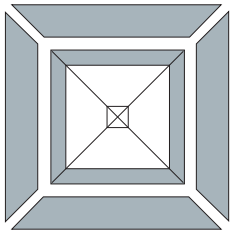
Packing pieces
4mm thick packing strips for fixing to joists when installing on 22mm thick floorboards.

Tray pack size options

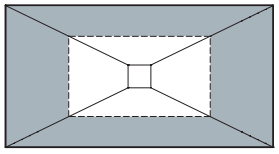
aqua4ma is now more flexible and versatile than ever. aqua4ma central Tray Packs are available in 5 standard sizes, the base being trimmable for maximum versatility.

Bases can be cut to various shapes and sizes by trimming one, two, three or all four sides of the base sides up to the non-trimmable area, giving you the opportunity to create an infinite number of tray sizes to suit almost any bathroom requirement.

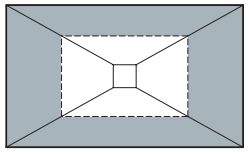
Trimmable area Metal Tray area



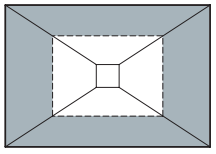
1300 x 1300mm:
Made up of 900 x 900 base plus 4 x 200 mitred extension pieces.
Metal tray 700 x 700mm
15mm base outer edge



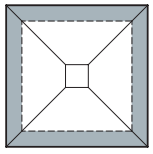
1700 x 900mm
Metal tray 900 x 510mm
15mm base outer edge



1500 x 900mm
Metal tray 800 x 510mm
15mm base outer edge



1300 x 900mm
Metal tray 700 x 510mm
15mm base outer edge



900 x 900mm
Metal tray 700 x 700mm
10mm base outer edge

Key installation stages

Place shower base in required position against wall/s and mark position of centre waste hole onto flooring. Remove base and position metal tray ensuring waste hole is centred over marked position. Mark corners of tray onto flooring. Measure and draw lines inside of marked corners, this is the area of flooring to be removed.

Using circular saw, saw depth to suit floor thickness and remove the area of floorboards. Connect waste body using 50mm/2" solvent weld waste pipe (not supplied), ensuring waste body is positioned to centre of the cut-out. Screw fix 4" x 2" (100 x 50mm) timbers (not supplied) to underside of flooring to strengthen the edges of the cut-out.

Mark centre lines of exposed joists onto flooring. Insert metal tray into cut-out and transfer drawn lines onto tray. Drill and countersink two holes per joist through metal tray to suit csk-head wood screws (not supplied). Screw metal tray into position.

Apply beads of KUDOS Grabber Adhesive to base of metal tray and the 4 outer flanges as shown. Carefully position shower base into position and stand on it to ensure it is fully bedded down onto tray and floor. Secure in place by using drywall screws (not supplied) around the perimeter at 150mm centres ensuring these avoid the metal tray underneath.

Using KUDOS Solvent Weld, apply a continuous bead to the edge of the shower base, as shown. Lay the first aqua4ma panel up to the edge of the base applying pressure to ensure the panel is fitted firmly against the base edge. Secure the panel in place using drywall screws at 150mm centres, then wipe clean surplus solvent weld. Joints should be staggered, as shown to help strengthen the overall assembly.

Apply a continuous bead of solvent weld to the edge of the shower base, as shown. Lay the first panel onto base and against the wall applying pressure to ensure the panel is fitted firmly against the base. Secure the panel in place using drywall screws at approx. 150mm centres into the stud-work, then wipe clean surplus solvent weld.

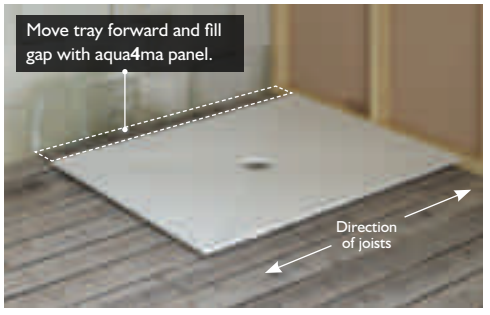
Panels can be fixed to solid walls, e.g. brickwork or blockwork, by applying a cement based flexible tile adhesive (NOT READY MIXED) to the back of the panels using a deep notched trowel.

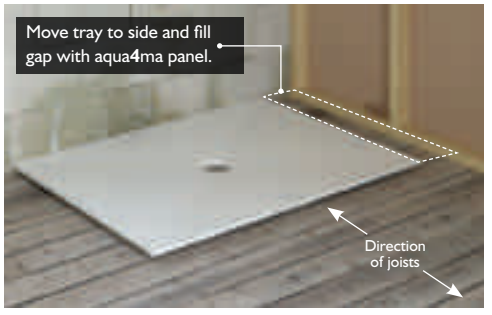
Full installation instructions can be downloaded from our website at www.kudosshowers.co.uk

Avoiding joists or pipes

Avoiding joists or pipes under the floorboards is easy with aqua4ma.

If the base position results in the waste being over a joist you can either trim the base then re-position against wall/s or offset the base away from the relevant wall and fill the gap using aqua4ma panel.





aqua4ma panels

aqua4ma Panels

aqua4ma Panels are available in three different thicknesses, 10mm, 13mm and 15mm, to suit the relevant Shower base. Each supplied either in 2 or 3 panel packs. The panels measure 1200 x 800mm (approx.) providing almost a square metre of coverage.

15mm panels are supplied with tongue and grooved edges to assist on installation. 10mm and 13mm panels are supplied square edged.

Please refer to the table below to calculate which panel thickness you require for floor.

aqua4ma Skirting

Available in 10mm and 15mm thicknesses aqua4ma Skirting measures 1200 x 150mm and are supplied in packs of four.

aqua4ma Panels and Skirting are both easily trimmable and can be fitted to both floor and walls by either screw fix method for timber floors and wall studwork or by applying cement based flexible tile adhesive to reverse of panels for solid floors and walls.

No pre-treatment is required as all panels are manufactured with a rough textured finish to give an excellent key for tile and vinyl adhesives.

aqua4ma Solvent Weld

aqua4ma Solvent Weld (sold separately) is supplied in 300ml tubes, suitable for 20 linear metres of joints or approximately four 1200 x 800 aqua4ma Panels and is applied using a standard 'silicone gun'.

This specially formulated solvent provides an incredibly strong and watertight joint to all uPVC panels and Shower base.

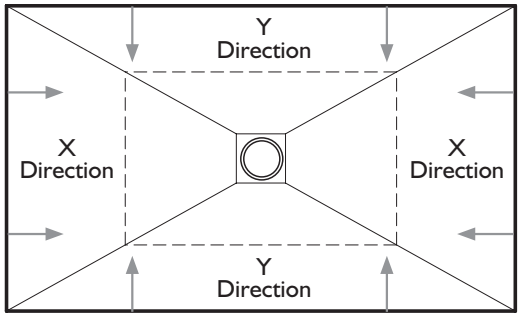
Trimmable bases offer greater flexibility

Shower base - Trimmable details

All shower bases feature printed guidelines. If necessary, trim to these guidelines (or in between guidelines and following diagonal lines) to ensure both waste symmetry and equal thickness around all 4 edges.

The bases can also be trimmed on one, two or three sides - any cut side(s) should be placed against a wall to ensure the outer uncut side(s) retaining the same edge thickness, face into the room.

Please refer to table shown to calculate the reduction in edge thickness dependent on amount trimmed on each side.



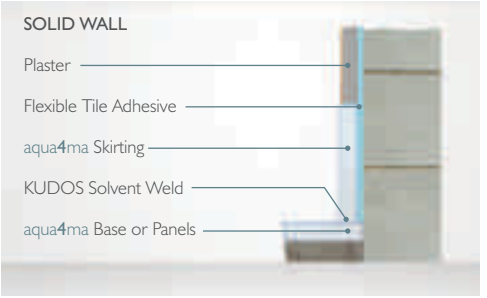
Shower Tray Size	Reduction in outer edge thickness for every 10mm trim	
	X	Y
900 x 900	0.25mm	0.25mm
1300 x 1300	0.25mm	0.25mm
1300 x 900	0.25mm	0.37mm
1500 x 900	0.20mm	0.37mm
1700 x 900	0.18mm	0.37mm

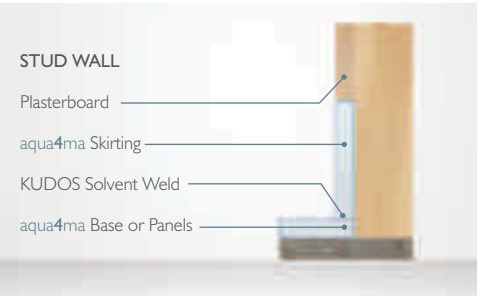
Installing panels & skirting

To achieve a flush finish to existing wall surface, plasterboard/plaster must be removed then panels & skirting are fitted to studwork/solid wall flush to wall surface. Shower base must be positioned to studwork/solid wall so that panels and skirting can be solvent welded to top of this.

Plasterboard/plaster to be removed and skirting panels fitted ensuring these are flush with the wall surface.

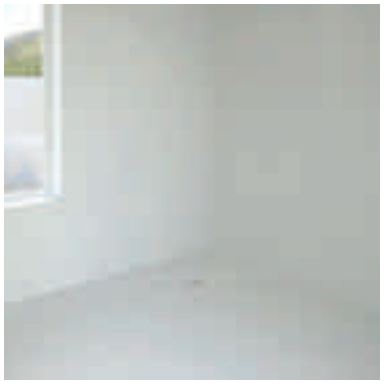
Solvent weld all joints.





Installing aqua4ma to meet your needs

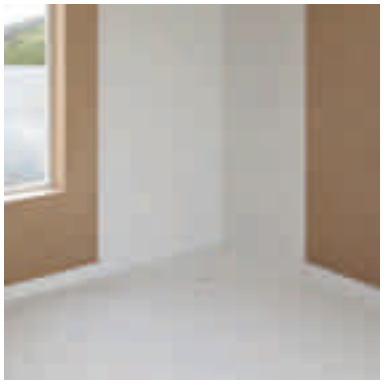
aqua4ma's incredible versatility ensures you can create a wet room to suit your needs. How you install the aqua4ma Skirting, Floor / Wall Panels is only limited by the type of installation you want to make.



Full Room Installation

Entire floor and all walls are covered with the appropriate aqua4ma Panels.

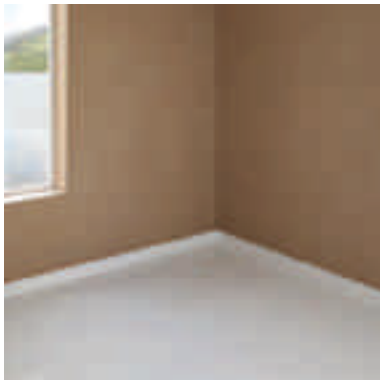
Note: Guarantee of water tightness applies only to where the aqua4ma product has been installed.



Shower Room Installation

Entire floor plus walls within the shower area are covered using the appropriate aqua4ma Panels.

The remainder of the walls are fitted with aqua4ma Skirting Panels.



Floor & Skirting Installation

Entire floor is covered using the appropriate aqua4ma Panels. The walls are fitted with aqua4ma Skirting Panels.

Shower Tray Pack & Skirting Installation

This installation incorporates the aqua4ma central Shower Tray Pack plus Skirting to the showering area only.

Remaining floor area must be built up to the same level as aqua4ma Base.

Small mosaic tiles will naturally follow the fall of the aqua4ma central deck without cutting

Corner Rail Option

bespoke
by KUDOS

Our extensive range of products cover a vast array of showering solutions with an unrivalled selection of overbath screens, enclosures and shower panels.

However, on occasions a standard sized product just will not suit the situation, in which case our bespoke service may be able to help. Many products within the KUDOS range can be tailor made to meet your requirements, whether it is a one-off special size shower door, a shaped panel to accommodate a sloping ceiling or a special design enclosure or bath screen for a housing development or hotel.

Whilst not all products can be made to measure we will apply our knowledge and expertise to try and provide you with a solution that meets your needs.

Thank you for your interest in KUDOS products

PRODUCT AVAILABILITY

KUDOS products are available from specialist bathroom retailers and plumbers merchants. For full details of your nearest stockist please refer to www.kudosshowers.co.uk

PRICING

All prices in this brochure are inclusive of VAT at the rate of 20%. KUDOS Shower Products Ltd reserves the right to introduce changes without prior notice.

PRODUCT SPECIFICATION AND DIMENSIONS

All dimensions are in millimetres, unless otherwise specified. Whilst every effort is taken to provide accurate information, the details contained in this brochure are for guidance purposes only. Dimensions shown are nominal and product specification is subject to change without notice. References to 'silver' relate to colour only.

IMAGE REPRODUCTION

All images contained in this brochure are the copyright of KUDOS Shower Products Ltd and may not be reproduced in any form without prior written consent.

USE WITH HIGH PERFORMANCE SHOWERS

References relating to product suitability for use with high performance showers assume that the showerhead is positioned appropriately for normal shower use and in the case of overbath showering does not include spray extending beyond the width of the screen. Please bear in mind the natural limitations of a door-less walk-in enclosure before fitting.

LIFETIME GUARANTEE

All KUDOS branded products carry a lifetime guarantee against faulty workmanship or materials excluding consumables. The guarantee does not cover normal wear and tear, damage caused by misuse or problems arising from faulty installation or any damage or defects to glass once assembly / installation has commenced. The guarantee is valid only for the original purchaser and is not transferable. Proof of purchase may be required for a claim under guarantee. The guarantee covers the product only; KUDOS cannot accept responsibility for subsequential loss or damage.
For full details of our guarantee please visit www.kudosshowers.co.uk

LIFESHIELD™ GLASS PROTECTION

The first permanent protection system for glass comes as standard on all KUDOS products. Lifeshield™ use the very latest nanotechnology to deliver a unique bond with the glass that leaves the surface totally smooth and helps to resist the build-up of unsightly limescale and soap deposits. Totally clear, UV stable and extremely durable, Lifeshield™ won't peel or flake. Unlike some other systems you don't really need any specialist cleaners or top-up products to maintain its' direct repellent properties.
