DESIGN, CREATE, INSPIRE

All Tavistock products are designed at our offices in the beautiful spa city of Bath. From here we control every stage of the product life cycle.

We're not just about bathroom furniture - we offer a one stop shop as our extensive range of product also includes sanitaryware, taps and showers. For those finishing touches we've got a great choice of mirrors, cabinets, toilet seats and bath panels. Perfect for an instant bathroom revamp.

Our highly experienced team of researchers, developers and technical experts are constantly monitoring new trends and rigorously testing advancements in technology.

With Tavistock, you can count on the highest levels of service and reliability, but what makes us special is our in-house design team. Excellent design is of the utmost importance to us, so we design all of our products in-house to ensure our perspective remains fresh and innovative. We source outstanding quality materials and craftsmanship so that every Tavistock product not only looks good but fulfils its purpose, time after time.

With extensive guarantees across our entire range, you can choose every Tavistock product with complete confidence.

DESIGN AHEAD OF ITS TIME

Bathrooms have evolved from being a merely a functional space and we are constantly monitoring new trends and rigorously test advancements in technology to ensure we produce bathrooms which stand the test of time. This diligence to innovation has meant we are able to offer many modernisations to our products including:

TOUCH FREE FLUSHING
Ensure maximum hygiene through eliminating the need to touch surfaces with our contactless flush options.

STEAM FREE MIRRORS
Free your bathroom of steamy mirrors through our heated demister technology which prevents the mirror from misting up.

HASSLE FREE MUSIC
Through the wireless Bluetooth technology in our mirrors listen to your favourite tunes or book by simply pairing it with your mobile.

EASI-CLEAN TECHNOLOGY
Rimless technology makes our WCs easy to clean and means that germs have nowhere to hide.

FURNITURE COLLECTION

CADENCE

The Cadence Collection

Sophistication made simple. A clean and refreshingly uncomplicated design, Cadence's angular form perfectly captures understated style. Choose from an extensive collection that includes six sizes in four finishes with a host of handle choices and in-drawer lighting & storage options.

CREATE YOUR BESPOKE CADENCE BATHROOM

Designed to offer you complete design flexibility, our Cadence collection is customisable, allowing you to create a configuration as unique as your home. Choose your unit size, select your choice of basin & pick from an array of contemporary finishes & coordinating handles. Follow the steps below to bring a singular touch to your bathroom scheme.

'Create your Cadence'
video

01

Select the size of your basin
Take stock of the size of your bathroom, considering floor space and unit placement. If space is tight, you might benefit from a smaller wall-hung option or even a compact cloakroom option. There are four wall mounted options in 500, 600, 800 and 1200mm widths as well as a 500mm freestanding unit. For a smaller cloakroom or ensuite solution we have a 400mm wide unit, which will fit perfectly.

02

Choosing your basin style
Define the look of your unit with either a ceramic or Isocast basin. Available in 400, 500, 600, or 800 widths, a ceramic basin offers a streamlined shape cast from a timeless, traditional material. An Isocast basin has a clean, precise, low profile design. Available in 500, 600, 800 sizes, as well as a statement-making 1200mm 'his and hers' basin.

03

Your finish options
Create an artful bathroom with a finish that sets the tone for rest, ritual and relaxation. Carefully considered, each of our four finish options adds a depth and interest that complements the simple styling of Cadence. Available in a choice of lustrous gloss or matt, our finishes expand from a neutral gloss white and light grey, to a deep, sophisticated oxford blue. Finally, a subtle tundra wood adds a natural touch.

04

Handle choices
Create a vanity as beautiful as it is functional with your choice from the extensive Cadence handle collection. Keep the whole look minimalist by using chrome or black drawer top handles or opt for a practical wide front-fixed pull option for a fresh take on the industrial look. A matt black handle option will add interest to create a highly personalised vanity. Undrilled drawer fronts allow you to position the handles where you wish, though we think a third of the drawer height down from the top looks good.

05

Useful storage box solutions
Further personalise your unit and declutter your space by adding Cadence solid wood storage boxes to your drawers. Incredibly useful, with five storage box styles including an L-shaped design with optional additional lids. Either choose one of the suggested configurations to fit your unit, or select your own mix to best suit your storage needs.

06

Add lighting for the perfect finishing touch
For the perfect finishing touch, light up your Cadence unit with an elegant lighting kit. The kit lights up the drawer to help you find what you need. Easy to use and operated by simply touching the side of the unit, this sensor is discreetly hidden from sight.

CADENCE FURNITURE

10 YEAR GUARANTEE

Years of experience and an understanding of exemplary design informs our furniture designs, and our Cadence collection is no exception.

Precise and restrained, this refined unit brings an understated silhouette to our furniture collection which is ideal for the modern home. Available in freestanding and wall hung variations, this versatile design lends a sophisticated edge to your bathroom space. Six size options give flexibility and choice, from a compact cloakroom unit to a statement 'his and hers' double vanity. Available in four of-the-moment colours in gloss, matt, and textured finishes.

CADENCE BASINS

Your choice of basin design will further enhance the styling of your Cadence unit. Whether you opt for a ceramic or Isocast basin, all are crafted from durable, timeless materials.

Perfectly proportioned and designed to sit beautifully in your basin unit, our ceramic basin options are available in 450, 500, 600 and 800 sizes. Expertly cast from ceramic, this polished material lends enduring style to your bathroom.

A clean, durable and contemporary alternative to a ceramic basin, our Isocast basins offer a sleek, streamlined surface and a generous wash space. Available in 500, 600, 800 and 1200 widths, Isocast enables the creation of basins with a defined, precise profile.

A Personal Touch

CADENCE HANDLES

Individual touches, allow you to create a layered bathroom scheme unique to your home.

Our extensive collection of handles and knobs gives you plenty of choice to complement your furniture unit. For a discreet integrated option, opt for a sleek draw-top handle. A refined matt black handle or modest round chrome pull can add texture and interest to even the simplest of fascia. Clean and contemporary, each of our hardware options combine style with a satisfying grip.

CADENCE LIGHTING

Our strong focus on practical design means that we aim to create products that make daily life that little bit better.

Clever and innovative, each of our units come with the option of convenient in-drawer lighting.* Touch activated, these discreet lighting kits are ideal for illuminating dimly lit and darker corners of your unit, ensuing all your bathroom essentials are visible and easily within reach.

Match 1000mm in Havana Oak

Match 1200mm in Tundra Wood

MATCH FEATURES

Units

With both 1000 and 1200 runs to choose from, Match integrates both basin and WC unit into a single, stylish design. Available in 6 finishes with a choice of on-trend painted finishes including oxford blue, gloss light grey, gloss clay & gloss white, or the warmth of either of our contemporary textured wood finishes; tundra or havana oak. Simple chrome detailing and discreet door handles blend together perfectly, making it ideal for any modern bathroom interior. Installation is very easy, with no cutting required to fit the basin. We recommend use of the Tavistock Vortex Cistern see page 148.

Isocast Basin with Integrated Worktop

The Match basins with integrated worktop area are extremely practical. They are manufactured using Isocast, a mineral substrate topped with a tough resilient gelcoat to give a glossy finish which is both durable and easy to clean. The look is seamless and modern. Available in both slim and standard depth configurations.

BASIN & WC COLLECTION

CHOOSING YOUR BASINS & WCs

Clean lines, sleek surfaces, forward looking design. That's what you get with our collection of basins and WCs. Whatever your personal style, you'll find something to inspire you - from standard basin, pedestal and WC formats in a range of styles and sizes, to back to wall WCs and semi-countertop basin options, suitable for use with bathroom furniture.

WC OPTIONS

We have a variety of WC options available and are sure to have the perfect solution for your new bathroom. Close coupled WCs are a conventional style toilet where the cistern sits on top of the pan.

COMFORT OPTIONS

We offer a range of comfort height solutions too. Sitting several centimetres taller than standard WCs they are perfect for taller, less able or elderly users. Our Aerial range also features an extra wide seat, offering total comfort for the user.

BACK TO WALL WCs

For a space saving, minimal, contemporary look choose a back to wall WC, where the cistern is concealed either in a furniture unit or behind a wall.

WALL HUNG WCs

For a clean, clutter-free look opt for a wall hung WC which being lifted off the floor gives the illusion of more space in a smaller bathroom. If considering a wall hung WC you will also need to purchase a suitable WC frame to support it.

TRADITIONAL WCs

If you want to achieve a traditional look go for our timeless Lansdown range or our Vitoria range which also includes high and low level WCs, see page 130-139.

BASIN OPTIONS

Our basins come in a range of sizes of both contemporary and classic styles to suit your needs. We have basins suitable for use with or without a pedestal. Our collection also includes semi-countertop basins perfect for fitted furniture and cloakroom options.

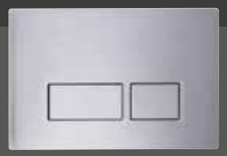
Choose Comfort

THE TALLER OPTION

Comfort height close coupled WCs sit several centimetres taller than standard WCs, ideal for taller, less able or elderly users. The extra height of the pan helps keep knees at a more comfortable angle in use as well.



THE PERFECT FLUSH

Add the perfect finishing touch to your back to wall or wall hung WC with one of our sleek flushing options. We have a wide variety of choice, from a simple yet elegant chrome push button to a more hi-tech contactless sensor. For those looking for a classic feel we also offer a traditional styled chrome flush plate.

PEACE OF MIND

All our products are guaranteed against defective workmanship or materials.

Such is our confidence in the quality of our basins and WCs we offer a 20 year guarantee, excluding cistern fittings which have a 5 year guarantee.

For wall hung WC frames the metal frame has a 10 year guarantee, all other components are covered by a 5 year guarantee.

Our toilet seats also benefit from a 5 year guarantee, with the exception of the Vitoria solid oak seat which comes with a 2 year guarantee.

HYGENIC SOLUTIONS

At Tavistock we have developed a range of solutions that minimise hand contact and ensure maximum hygiene.

If you thought this innovation level could not be applied to your home, be prepared to open your bathroom to a new approach to safety and hygiene. Innovative and practical devices that protect us from the transmission of viruses and bacteria.

CONCEALED CISTERN CONTACTLESS DUAL FLUSH SENSOR KIT

Eliminate the need to touch surfaces and reduce water consumption with our easy-to-install, battery-operated flush sensor, which is designed to replace a conventional flush button.

A choice of discreet decals are included to indicate the sensor button if required.

A quick wave of the hand in front of the sensor activates the reduced flush, whilst holding your hand slightly longer triggers a full flush.

Contactless dual flush sensor kit - TR9014

Contactless dual flush sensor plate - TR9025

CONTACTLESS DUAL FLUSH SENSOR PLATE

Place your hand in front of the black glass-fronted flush plate to activate either a reduced or slightly longer full flush, and the plate lights up to indicate activation. Ideal for in-wall installations.

Smart Design

MAKE LIFE A LITTLE EASIER

Our WCs are designed with convenience in mind. Rimless technology makes our WCs easy to clean and means that germs have nowhere to hide as water is projected around the bowl, ensuing it is completely clean.

ANTI-BACTERIAL PROTECTION

An environmentally friendly built-in additive provides a hygienic finish to our Aerial toilet seat which also protects against bacteria, fungi and microbes.

QUICK RELEASE HINGES

Easy to operate quick release hinges are featured on some toilet seats, allowing the seat to be lifted away easily, leaving clear access to clean hard to reach surfaces. Available as standard with all our WC ranges.

LOFT

The Loft Collection

Loft brings back the tried and tested classic toilet seat shape in a new modern style for the 21st century. Featuring modern Air Gap technology in cisterns, rimless bowls, quick release seats and soft yet stylish basins, Loft really is a timeless design.

LOFT FEATURES

Semi-Countertop Basin
The softly geometric semi-countertop basins combine slim ceramic sides with generous wash space. They look great when used with Tavistock fitted furniture and can be used in 500mm wide units.

Comfort Design
Ideal for those who stand a little taller or have mobility issues, all Loft Comfort Height WCs sit several centimetres higher than standard toilets, meaning less strain on the knees and back.

WCs & Rimless Design
The smooth-sided design of Loft's WCs work with any modern bathroom and makes them easy to keep dust-free. Also available in back to wall versions, they all feature Easi-clean rimless technology which makes them exceptionally hygienic and easy to clean on the inside as well.

Soft Close WC Seats
The Loft range comes with a choice of soft close toilet seats. Choose from a two button quick release thermoset seat or a Premium lift off wrap over version. Both versions are top fix for easy installation.

ION

The Ion Collection

Geometric styling comes to the fore with this range. Ion's square basin & short projection D-shaped WC pans make it a modern classic which works extremely well in smaller bathrooms.

ION FEATURES

Wash Basins
The square-shaped basin features a spacious wash area and central tap hole and for a contemporary look it is wall hung with a simple chrome bottle trap. Three semi-countertop basins are also available.

The semi-countertop basin options are available in standard and slim depth, for use with fitted furniture.

WCs
The Ion range has a whole host of WC options including close coupled, back to wall and fully enclosed close coupled. Additionally, a comfort height WC, several centimetres taller than a standard WC, helps reduce the burden on those tired legs.

Soft Close WC Seats
The Ion wrap over design toilet seat complements this curvacious yet angular range and features soft close hinges to ensure controlled, quiet closure. Made from highly durable thermoset plastic, it also features quick release hinges for easy removal for cleaning.

MICRA

The Micra Collection

Small but perfectly formed Micra is designed for the smaller bathroom, cloakroom or en-suite. Flexibility is the key here, with an extensive range of sanitaryware with clever space saving ideas.

MICRA FEATURES

Wash Basins
Choose from a variety of basins including several suitable for smaller bathrooms or cloakrooms. Alternatively opt for a semi-countertop basin with bathroom furniture. Both 565mm and 450mm basins are available in 1 or 2 tap hole configurations and can be used on a pedestal or wall mounted.

Comfort Heigth WCs
With a rim at 46cm high, the Micra close coupled and back to wall WCs are extra comfy to use.

Short Projection WCs
The short projection close coupled WCs in our Micra range are ideal where space is at a premium.

Soft Close WC Seats
Micra WCs have a choice of two toilet seats; wrap over or a slimmer style. Both models feature soft close hinges for quiet closure of the seat and ring, with a neat quick release function for easy cleaning.

Cisterns
Compatible concealed cisterns and frames for your Micra back to wall WC, including a comfort height concealed cistern, can be found on page 148.

VITORIA

The Vitoria Collection
Introducing the elegant and timeless styling of Vitoria sanitaryware.
The perfect bathroom solution for a period home.

Coordinate

Vitoria works perfectly with Lansdown furniture. For a classic look coordinate with a painted Vitoria toilet seat.
see page 84

VITORIA FEATURES

Wash Basins
Vitoria basins are available in both round and square configurations, with one tap hole or 2 tap holes to suit the style of your bathroom, both with chrome overflow cover and coordinating pedestal. A 2 tap hole cloakroom basin is also available. All 2 tap hole basins have provision for a chain stay waste. Choose the chrome washstand for a classic feel.

WCs
You have the option of high level, low level, close coupled or back to wall WCs. High and low level WCs feature chrome plated brass downpipes. Low level and close coupled WCs have full flush and reduced flush operation (6/4L) with a ceramic cistern handle. The high level WC has ornate brackets and a 6L flush.

Soft Close WC Seat
Wooden soft close seats incorporate a chrome plated bar hinge featuring top and underfix options with adjustable fitting. The natural oak seat is solid oak. Alternatively choose painted gloss white or a finish to coordinate with your Vitoria or Lansdown furniture.

CONTACTLESS DUAL FLUSH SENSOR

The contactless flush sensor kit is compatible with our pneumatic concealed cisterns, and is best used within furniture. It provides a touchless flush, with just a wave of a hand.

The Sensor works using capacitive sensor technology to detect a change in the electromagnetic field. A short wave of the hand in front of the sensor activates the reduced flush, whilst holding your hand slightly longer triggers a full flush. It is powered by 4 AA batteries which will last around a year under normal domestic conditions.

The sensor can be mounted behind a back to wall WC unit fascia, or under a worktop or tiled wall near the cistern. A discreet decal is included to indicate sensor location if desired.

*Normal domestic conditions, good quality batteries

FEATURES INCLUDE:

- Dual flush
- Provides a touchless flush with just a wave of the hand
- Best used with concealed cisterns in furniture
- Powered by 4x AA batteries
- Low battery alarm

Sensor - TR9014

TAP COLLECTION

CHOOSING THE RIGHT TAP FOR YOU...

Taps are no longer just a minor detail, they're the finishing touch. The right tap choice must combine the two key ingredients of design and functionality, and with this in mind we have designed a collection of taps which delivers both. There is something to suit all bathroom styles, from sleekly contemporary to charmingly traditional.

We have a variety of taps and styles depending on your bathroom requirements.

BASIN MIXERS & MINI MIXERS

Both contemporary and classic styles are available, with ceramic cartridge technology to give smooth, easy to use action and accurate flow control. For smaller basins or cloakroom furniture opt for a mini mixer to keep things in proportion. For an ultra-contemporary look, go for one of our stylish matt black basin mixers.

BASIN TAPS

Our classically styled tap ranges also offer basin taps, for separate control of hot and cold water.

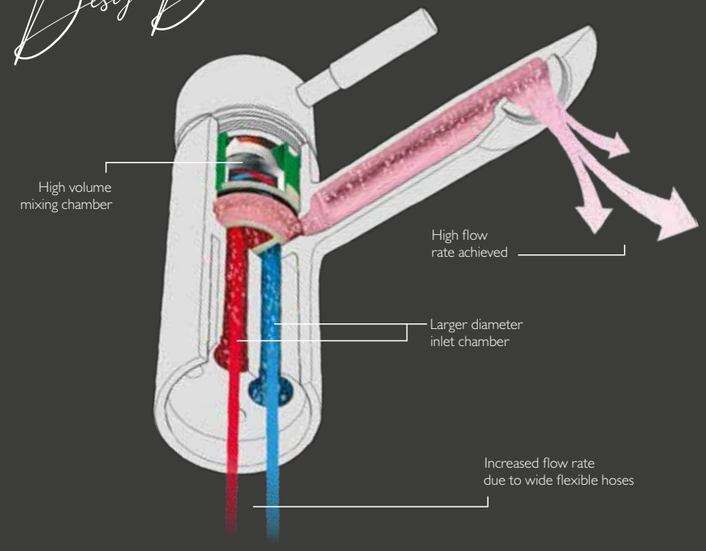
BATH FILLER, BATH SHOWER MIXER

Fill your bath with a deck-mounted bath filler in a contemporary or classic design and mix hot and cold water from a single spout. Alternatively upgrade to a bath shower mixer. The shower handset is really useful for washing hair or cleaning the bath.

CERAMIC DISC TECHNOLOGY

All of our taps are built to the highest technical specification, including the internal components. With a smooth and easy to use action, the ceramic discs in our basin mixers and bath fillers mean that a simple lift of the handle for basin mixers and a quarter turn for bath fillers takes the tap from completely off to fully on. So practical, and incredibly durable even after years of use.

Design Detail



TAP OPERATING PRESSURE

Plumbing systems can sometimes suffer from poor flow rates. The UK is unique in that many homes are still using the more traditional, low pressure gravity fed plumbing systems commonly found in older properties.

Some manufacturers tend to design taps suitable for modern plumbing systems which can often cause disappointing flow rate when using the taps in UK homes. Tavistock's in-house design team have recognised this problem and engineered our taps for use with both high and low pressure systems. Most of our taps operate at 0.1 bar or above.

If you are unsure, we recommend you seek advice from your plumber who will advise you on the plumbing system you have and the likely water pressures it can achieve. If pressures are too low even for our low pressure taps, you will be able to increase your water pressure using a suitable water pump, your retailer or plumber can advise you on this. Please note that all of our taps are also suitable for high pressure plumbing systems.

PEACE OF MIND

All our products are guranteed against defective workmanship or materials.

Our taps are manufactured in a closely controlled environment with extensive quality control tests carried out. It is this attention to detail that allows us to offer offer a 10 year guarantee (including cartridge) with all of our taps.

WASTES & TRAPS

Our tap ranges are perfectly complemented by our stylish bottle traps and collection of wastes.

Most of our taps are suppplied with a click waste. Varsity basin mixer has a pop-up waste which includes a waste outlet, pop-up rod and lifting mechanism. For taps supplied without a waste, we have a few waste options as shown below. Unslotted wastes are for use where there is no integral overflow in the washbasin. If your basin is wall hung choose our modern chrome trap or the more traditional styled version to complement your taps perfectly.

All bath taps are supplied without wastes as it is usual to purchase your waste with your bath. We have a choice of bath wastes with overflow in 2 different lengths depending upon your installation requirements.

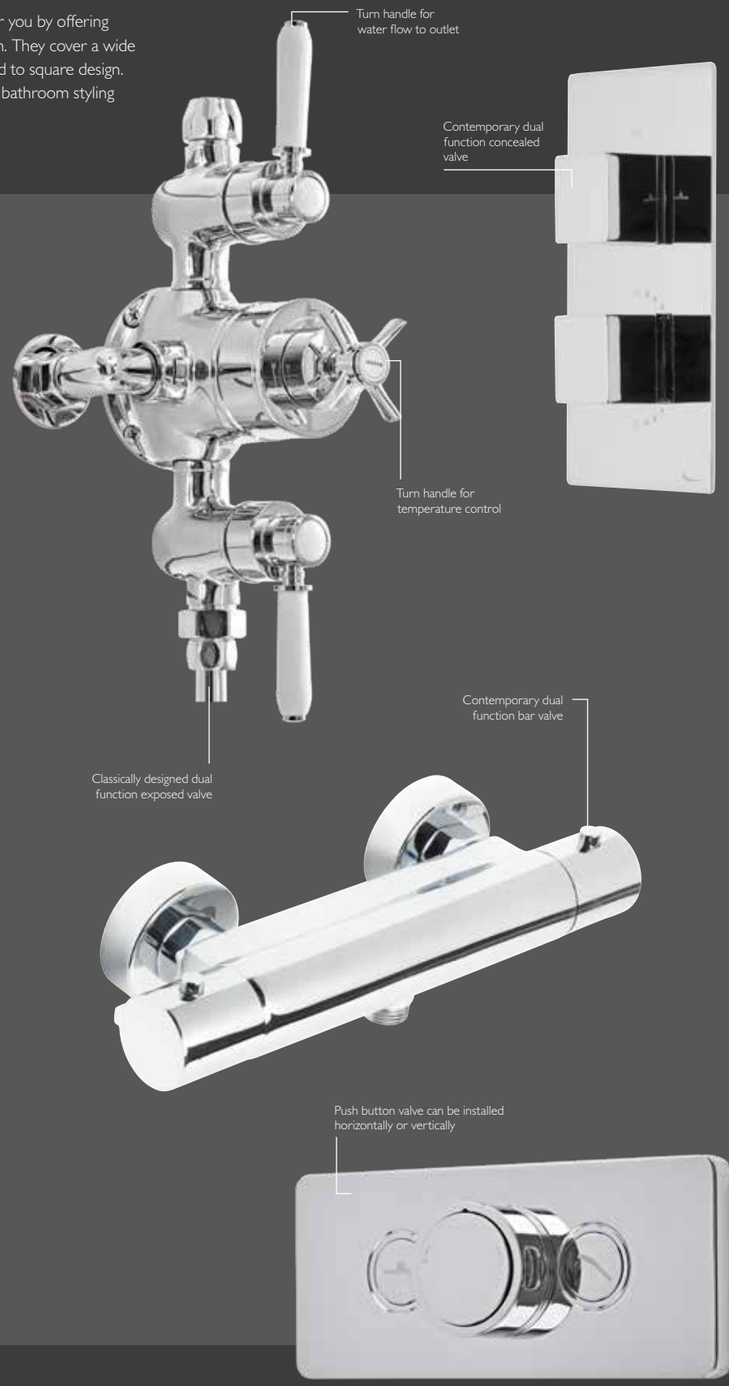
SHOWER COLLECTION

TAVISTOCK SHOWER SYSTEMS

Our shower collection simplifies the buying process for you by offering complete shower systems for a ready-to-install solution. They cover a wide range of styles from classic to contemporary and round to square design. We have a choice of valve options, depending on your bathroom styling and the number of showering functions you need.



Choose from our collection of concealed, exposed or bar shower valves. We have a variety of single function (operating a single shower component only, such as a shower handset) or dual function valves (operating two shower components, such as a shower handset and an overhead shower head).

CONCEALED VALVES

If you prefer a sleek, clean look then opt for a concealed shower valve, with the valve hidden in the wall and a cover plate. This has the added benefit of flexible plumbing enabling you to position the valve away from the shower flow, so you can turn the shower on without getting wet until you want to. Classic and contemporary styles are available.

EXPOSED VALVES

An exposed shower valve offers a simple installation solution as the valve showcases all working parts. Perfect for a traditional period style bathroom, making it just the right finishing touch.

BAR VALVES

Our contemporary bar valves are easy to install, with all of the components mounted on the wall. Some of our bar valve shower system options are also available with a useful integrated shelf, a handy spot for your shower gel and shampoo. Look out for the 'Cool Touch' options, designed to stay cool to the touch during use.

PUSH BUTTON VALVE

Our ergonomic valve design provides instant on/off activation for a seamless showering experience. This innovative design allows you to easily control water flow and three luxurious spray settings, all at the touch of a button with a central temperature dial for convenience. All of our push button shower valves are easy to install and can be completely removed to be serviced, without damage to the wall or the need to re-tile.

SAFE SHOWERING

Our shower systems feature anti-scald thermostatic control, which ensures that your preferred water temperature is maintained without risk of unexpected temperature changes due to water usage elsewhere in the household.

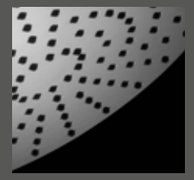
Tavistock shower systems also benefit from automatic shutdown should the cold water pressure suddenly fail, guaranteeing you a safe showering experience.

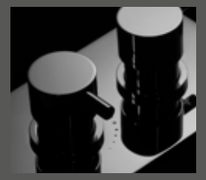
THERMOSTATIC TECHNOLOGY

All of our shower valves are built to the highest technical specification, Our shower valves have been designed to ensure smooth, precise temperature control of the water flow from your shower system.

PEACE OF MIND

All our products are guaranteed against defective workmanship or materials. Such is our confidence in the quality of our shower systems that we offer a 10 year guarantee, which includes the thermostatic cartridge. How's that for assurance?





CONTEMPORARY SHOWER SYSTEMS

Exemplary design, clean lines and utilitarian elegance form the basis of our contemporary shower collections. Each element is engineered with the highest quality components for uncompromising performance and durability. With many styles and showering configurations available, our comprehensive range gives you maximum choice and flexibility.

MIRROR & CABINET COLLECTION

CHOOSING THE RIGHT MIRROR

Choosing an illuminated mirror will help enlarge even the smallest of spaces, reflecting light around the room and brightening your day. A host of useful features such as **Bluetooth**® wireless technology, heated demister pads and integrated recharging sockets will make you wonder how you ever managed without one.

FOR YOUR CONVENIENCE

A convenient integrated recharging socket, suitable for electric shavers and toothbrushes is included with our Realm mirror.

STEAM FREE

Many of our mirrors feature a heated demister pad to keep your mirror steam-free. You'll really appreciate never having to wipe it down again!

The heated demister pad heats the mirror to a few degrees above room temperature within 2-3 minutes, preventing the mirror from misting in even the steamiest of bathrooms.

LIGHT TEMPERATURE CHANGING TECHNOLOGY

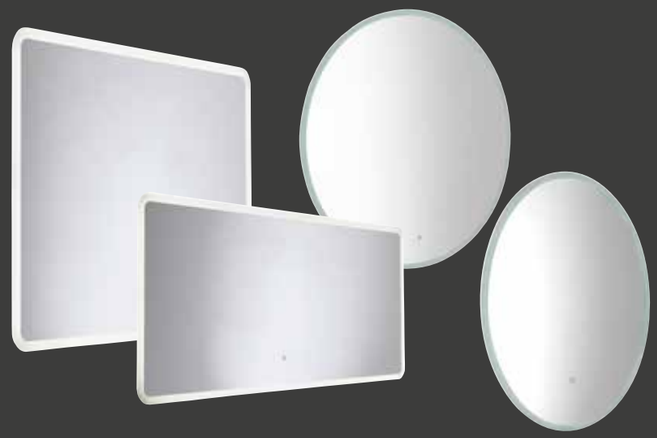
This lets you create the perfect bathroom environment by enabling you to adjust the warmth of your mirror illumination to suit both the task in hand and time of day. Kick-start your day with bright, invigorating daylight. Then choose a natural light to apply make-up and a warm light for sleepy late evening tasks.

Light temperature ranges from 2700K (Warm White) to 6000K (Daylight White). You can also adjust the intensity of the light to be as bright or as dim as you wish.

TOUCH FREE OPERATION

Many of our mirrors have an infrared on/off switch which lets you activate the lighting without even touching your mirror. Simply move your hand in front of the sensor to activate.

Important: When mounting mirrors with infrared switches, the sensor must be at least 150mm from an adjacent wall or obstruction to ensure the switch can function properly.

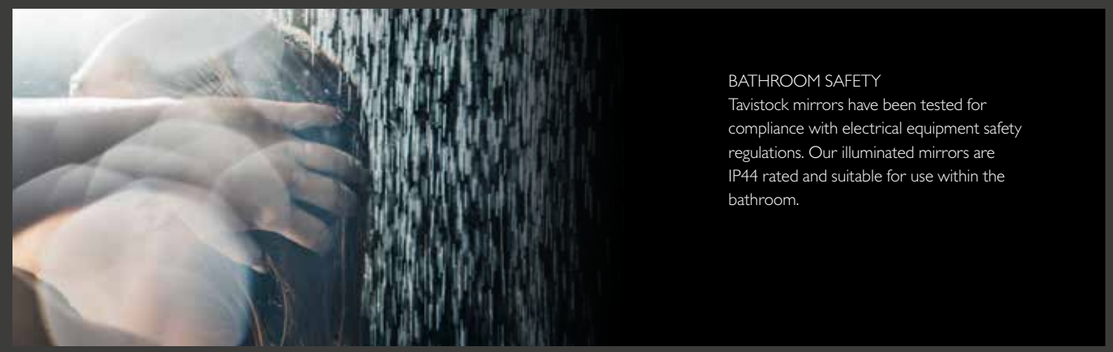


SOMETHING TO SUIT ALL BATHROOMS

We always think about how you may need to use our products, given both space constraints in bathrooms and design choices. We have a wide selection of mirrors in different shapes and sizes so there is bound to be something just right for your bathroom, no matter how big or small.

BRING MUSIC TO YOUR BATHROOM

Catch up with the morning news during your shower or listen to your favourite playlists with **Bluetooth**® wireless technology. Easily pair your device to one of our innovative music mirrors featuring quality integrated speakers.



BATHROOM SAFETY

Tavistock mirrors have been tested for compliance with electrical equipment safety regulations. Our illuminated mirrors are IP44 rated and suitable for use within the bathroom.

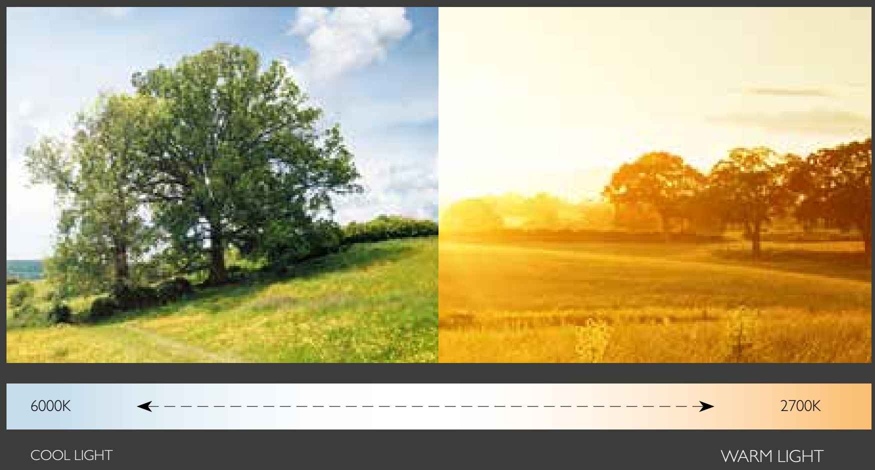
CHOOSING THE RIGHT CABINET

If you're looking for additional storage, a mirrored cabinet can help to create a calm, clutter-free space. Tavistock has an extensive collection of cabinets with a host of useful features to choose from. Heated demister doors keep things steam-free and light temperature technology puts you in control of the illumination of your bathroom.

LIGHT TEMPERATURE CHANGING TECHNOLOGY

This lets you create the perfect bathroom environment by enabling you to adjust the warmth of your cabinet illumination to suit both the task in hand and time of day. Kick-start your day with bright, invigorating daylight. Then choose a natural light to apply make-up and a warm light for sleepy late evening tasks.

Light temperature ranges from 2700K (Warm White) to 6000K (Daylight White). You can also adjust the intensity of the light to be as bright or as dim as you wish.



STEAM FREE

Many of our cabinets feature heated demister doors to keep your cabinet steam-free. You'll really appreciate never having to wipe it down again! The heated demister pad heats the mirrored doors to a few degrees above room temperature within 2-3 minutes, preventing them from misting in even the steamiest of bathrooms.

COMPLETE HARMONY

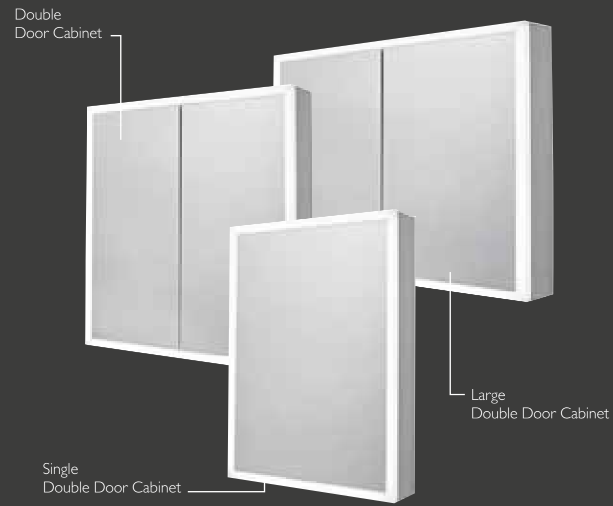
Aluminium bathroom cabinets work well with all basin units, however we have a number of cabinets with a gloss white finish which will coordinate with your Tavistock bathroom furniture.

PERFECTING THE AMBIENCE

Dimmable lighting has been added to a number of our cabinets to allow you to control the brightness of the light in your bathroom no matter what the time of day or night.

INTUITIVE TECHNOLOGY

Our Slide cabinets feature an intuitive touch slider switch which enables you to adjust both the warmth and brightness of the LED lighting. Simply slide your finger up and down the sensor to operate.



SOMETHING TO SUIT ALL BATHROOMS

At Tavistock we are mindful that bathrooms come in all shapes and sizes. That's why we have ensured our cabinets offer a selection of sizes to suit any bathroom, no matter how big or small.

RECESSED CABINETS

Recessing the cabinet within the wall or partition is a great way to conceal and store all of your bathroom accessories whilst maintaining a clean and clutter free bathroom.

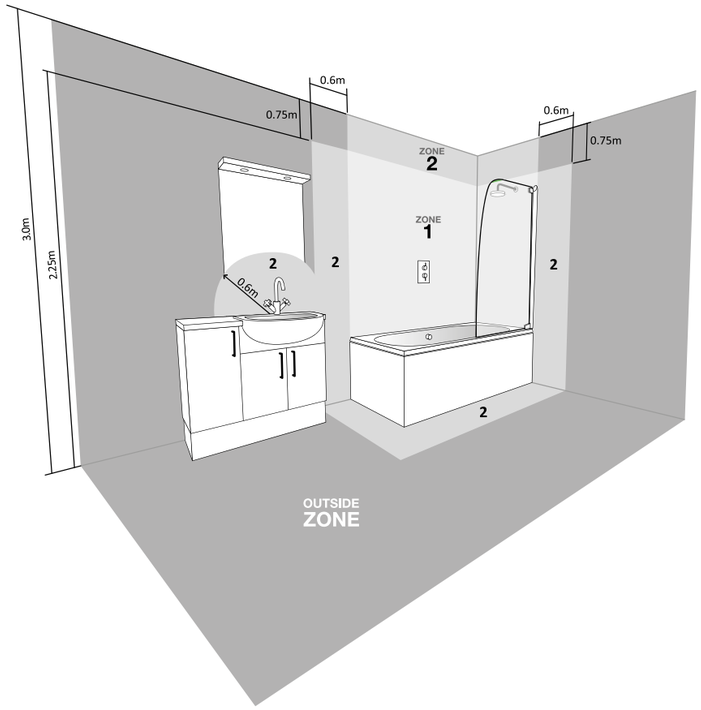
SAFETY IN THE BATHROOM

Mirrors Technical Information
Tavistock illuminated mirrors have been designed and tested for compliance to electrical equipment (safety) regulations.

All electrical connections should be made according to the latest national wiring regulations. Illuminated mirrors are suitable for installation in the bathroom within outside zones unless stated. Mirrors which are IP44 water resistance rated are suitable for use in zones 2 and outside zones in the bathroom. Illuminated mirrors are not suitable for installation in saunas, steam rooms, shower cubicles or above a bath tub. Products are only suitable for permanent installation. Installation by a suitably qualified electrician is required.

Cabinets - Electrics
Our illuminated cabinets have been designed and independently tested for compliance to electrical equipment (safety) regulations. They are only suitable for use outside zones 1 & 2 according to the latest IEE regulations. All cabinets are class 1 insulated and require an earth connection.

Infrared Sensor
All mirrors or cabinets featuring infrared technology must ensure that the sensor is mounted a minimum of 150mm from an adjacent wall or obstruction to ensure correct function.



ZONE 1

Electrical fittings in this zone require separated extra low voltage and a minimum rating of IP44 (splash proof).

ZONE 2

Electrical fittings in this zone require a minimum rating of IP44 (splash-proof).

USEFUL INFORMATION

GUARANTEES

Giving you complete peace of mind

At Tavistock we are extremely proud of our products and our confidence in their quality is such that we offer extended guarantees on many of them, including a 10 year guarantee on all furniture and taps plus a 20 year guarantee on all basins and WCs.

All products are guaranteed against defective workmanship or materials. Length of guarantee depends on the product type - please refer to relevant section of the brochure.

Attention is drawn to the policy of replacing any damaged part with a spare part where possible. Complete exchanges will only be made if damage is extensive. All dimensions are approximate and are quoted within reasonable tolerances.

QUALITY & SERVICE

Exceptional service is as integral to our business as outstanding product, design and manufacturing. We invest heavily in product improvement and reserve the right to amend specifications at any time if an opportunity to further improve the product occurs to ensure complete customer satisfaction.

The furniture colours shown in this brochure are representative only and can be affected by a multitude of factors such as lighting and surrounding items. If you are unsure we would recommend obtaining a swatch from our website or your local retailer and testing in the intended bathroom area

PRICING

All prices are quoted inclusive of VAT which will be charged at the rate applicable on the date of despatch. The prices charged will be those ruling at the date of despatch and Tavistock cannot be held responsible for any errors or omissions to products or prices.
