

PORTA

Shower Enclosures, Wetroom Solutions & Bath Screens

8MM GLASS
Frameless Collection
pages 4-7

Sliding Doors, Bi-Fold Door, Pivot Door, Pivot Door with In-Line, One Door Quadrants, Hinged Door with One In-Line or Two In-Line Panels and Side Panels.

Colours available: Polished Chrome, Matt Black & Brushed Brass*
*selected products only

8MM GLASS
Semi-Frameless Collection
pages 8-9

Pivot Doors, Bi-Fold Doors, Sliding Doors, Level Access Sliding Doors, One Door Quadrants, Two Door Quadrants, Side Panels and In-Line Panels.

6MM GLASS
Framed Collection
pages 10-11

Pivot Doors, Bi-Fold Doors, Sliding Doors, Level Access Sliding Doors, One Door and Two Door Quadrants, Corner Entry Enclosures, Side Panels and In Line Panels.

6MM GLASS
Black Framed Collection
pages 12-13

Sliding Doors, Pivot Doors, One Door Quadrants and Side Panels and In-Line Panels.

Wetroom Panels
pages 14-15

Wetroom panels available in 8mm or 10mm glass thickness with Polished Chrome, Matt Black, Brushed Brass or Brushed Nickel finish, with Fixed or Pivoting Deflector Panels and Round or Square Brace Bars.

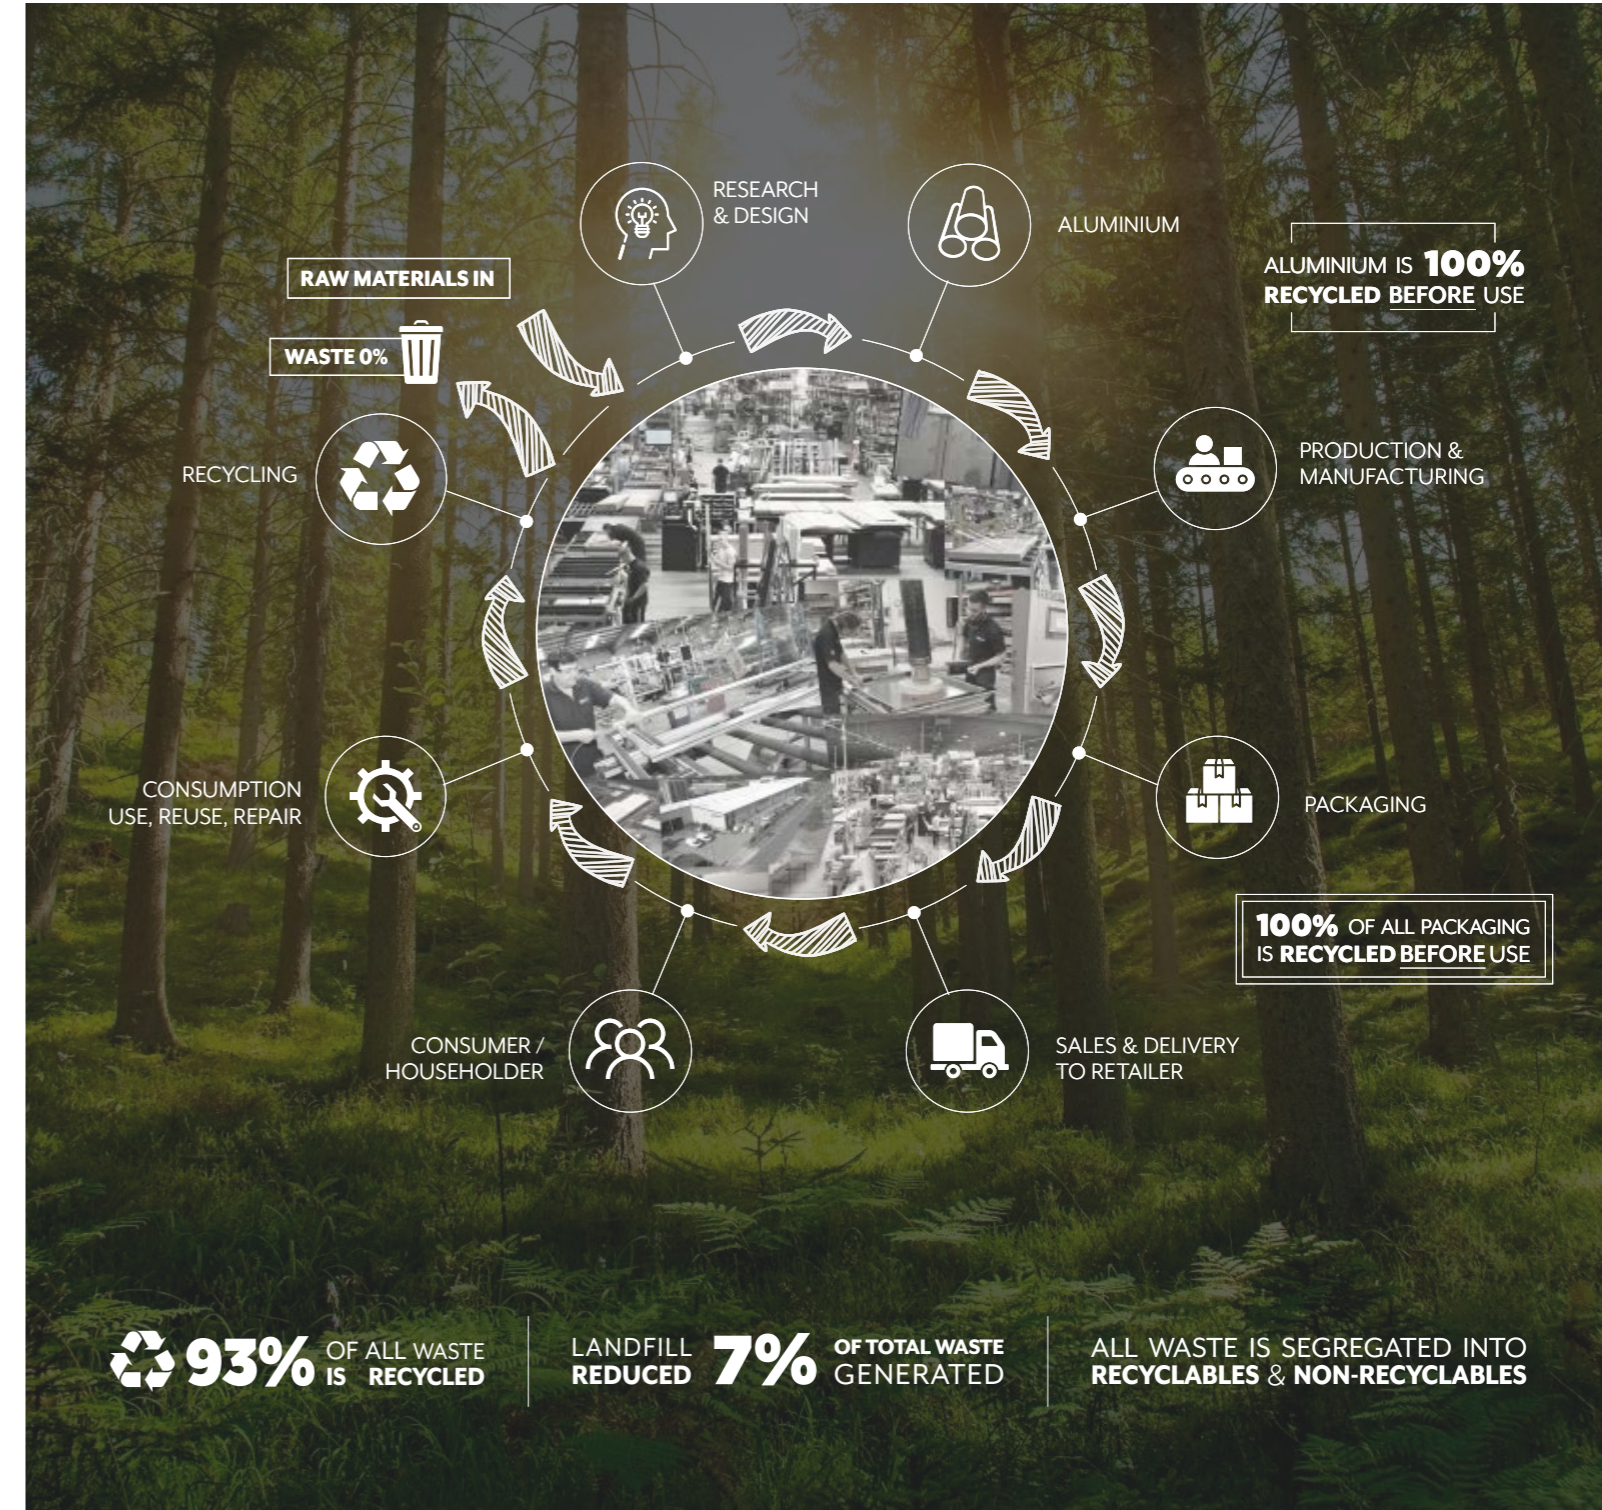

Please Note: Round Brace Bars are only available in Polished Chrome finish, Brushed Brass & Brushed Nickel wetroom panels are available in selected sizes.

Bath Screens
pages 16-18

Available in 5mm, 6mm or 8mm glass thickness with Polished Chrome or Matt Black frame.

Choose from 11 different bath screens; from Standard Bath Screens, Curved Bath Screen, Angled Bath Screen with Towel Rail, Inward Folding Bath Screen, Fixed Bath Screen and Power Shower Approved Bath Screens.

Constantly working with their suppliers to maximise the use of recycled materials. The principles of the circular economy are embedded in all of their design and purchasing policies and plans. All aluminium and packaging is manufactured using 100% recycled material before use it in the manufacturing process. All other materials used in the manufacturing of products are also at high levels of recycled material. All packaging is fully environmentally friendly with no wood or polystyrene used and is therefore itself 100% recyclable.

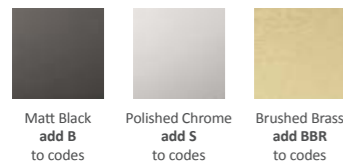

The shower manufacturer has a huge commitment throughout their business to environmental targets, recycling, sustainable materials and sustainable business practices. As British manufacturers, they are increasingly focussed on environmental credentials and have a strong focus on the Circular Economy - with the ultimate aim of becoming carbon neutral. Every piece of aluminium is already 100% recycled before use, and all packaging is 100% recyclable before and after use.

Sliding Door

- Glass Thickness: 8mm
- Choice of colour finishes
- Chromed brass feature handle & machined components
- Fast Fix Assembly
- 20mm adjustment in profiles
- Low profile PVC seals
- Fully reversible

Code	Size (mm)	Description	Aperture (mm)	Adjustment (mm)	Price (inc VAT)

THE ULTIMATE BATHROOM PROTECTOR ON GLASS

All glass surfaces have a non smooth finish which attracts the build-up of particles. Ultra Care provides an invisible protective film which seamlessly seals the surface to ensure this build-up does not bond to the glass and the glass retains its optical clarity for lasting sparkle.

Before Coating

After Coating

All Enclosures and Bath Screens are pre-coated with Ultra Care, our own unique glass protection system. Pre-coated glass protection systems will always diminish in their effectiveness over time, depending on how often the shower is used and how often it is cleaned. Unlike other systems, Ultra Care in a bottle can be used in tandem with the pre-coat to build up the effectiveness and make it stronger the more you clean.

Ultra Care is an award winning bathroom protector and has over a 15 year track record for successfully protecting our extensive product range. **When applied to the glass of an enclosure or bath screen it creates a chemical barrier which provides protection against the build-up of grime, limescale and stains.** The protective barrier means water glides off the glass with ease. This results in the protected surface remaining easy to clean by simply applying a mild detergent and wiping with a damp cloth or Shower Blade.

By topping up the glass protection system with Ultra Care in a bottle every time you clean, you can significantly reduce the amount of time required to clean your enclosure and bathroom surfaces. Most importantly, you can considerably prolong the life of your product and at the same time do your bit for the environment by eliminating the use of harsh and damaging cleaning products.

Pivot Door

- Glass Thickness: 8mm
- Chromed brass handle
- Chromed brass hinges
- 'Minimal' low profile seals
- Pivot door must be hinged from the wall
- 25mm vertical adjustment in each profile
- Fully reversible

If your space will simply not allow for both separate showering and bathing facilities, our collection of Bath Screens can be the perfect solution. This extensive range of bath screens offers unique over the bath showering solutions, we have something to suit everyone's requirements, including style and budget.

With a chrome wall profile, our range of bath screen styles include: sail with a towel rail, curved and square glass as well as inward folding or fixed bath screens. Our power shower approved bath screens incorporate a unique seal system for added water integrity.

All bath screens are manufactured using toughened safety glass which complies to BSEN12150.

Credentials

From packaging to end of life recycling, our products have minimal impact on the environment, with ISO 14001 which targets waste reduction.

All Shower Enclosures, Wetroom Panels and Bath Screens within this brochure are manufactured in the UK.

All shower enclosures have been tested and fully conform to BS EN14428:2015 (Shower Enclosures - Functional requirements and test methods). Any newly manufactured products from the 1st January 2021 will have the new UKCA mark applied as per government guidelines.

As a result of full compliance; all shower enclosures carry the 'CE' mark and are accompanied by a declaration of performance. The CE marking indicates all shower enclosures conform to all essential requirements of European health and safety and environmental protection legislation. The conformity is mandatory, and allows the products to be legally placed on the market anywhere in the European Economic Area.

Lifetime Guarantee

All Shower Enclosures, Wetroom Panels and Bath Screens are guaranteed against faulty materials or manufacture for life, provided they have been installed, used and maintained in accordance with our instructions.

All product guarantees must be completed and returned within 60 days of purchase to validate the relevant guarantee. Failure to meet this deadline will result in a statutory 1 year guarantee on all products.

Should a claim arise Customer Relations will investigate the issue. As part of this investigation we request that the following conditions be satisfied:

1. Proof of purchase at the time of the claim.
2. The guarantee applies to the original purchaser only and is non transferable.
3. The product has been fitted / installed in accordance with the fixing instructions, local bylaws and general good plumbing practice.
4. The product has been maintained and cared for in accordance with our instructions (including regular and appropriate cleaning).

If in our opinion the product has been modified, misused, neglected, wilfully or accidentally damaged, we can accept no responsibility for failure.

Our representatives must be given the opportunity to inspect the product in the installed condition.

Should any products included in the Lifetime guarantee be used for commercial use i.e. leisure clubs, schools, hospitals, student accommodation, hotels or residential homes, only a 5 year guarantee will be applicable.

If in our opinion the product fails due to faulty materials or manufacture and that the conditions above have been met, we will arrange for a specialist Technical Sales Representative to repair or replace that item at our option.

We believe in continuous improvement. If in our opinion the product has failed under the terms of the Guarantee and a replacement is offered but identical goods are no longer available, we will replace it with our nearest equivalent product. For countries outside of the UK and Republic of Ireland, where a product has failed due to faulty materials or manufacture, a replacement product or product part will be offered only.

Should we carry out work as a result of a claim but subsequently it is revealed that the product has been abused or improperly installed, we reserve the right to charge the customer for the expense incurred.

The liability is limited to the product supplied by us and does not extend to consequential loss or damage arising from the defective product.

This Guarantee, which is effective for products purchased after **July 1st 2008**, states our entire liability and is offered to customers acquiring our products as consumers, not in the course of trade or business. Ex displays or products reinstalled from their original position are not covered under this guarantee.

Non glass or metallic parts (e.g. seals) are subject to normal wear and tear through usage and are therefore covered on all products for 1 year from installation.

This Guarantee does not affect your statutory rights. This Guarantee is wholly applicable in the U.K. and Republic of Ireland – export conditions as indicated.

Important Product Details

- Enclosures and Screens carry a manufacturer's guarantee if products are installed according to the installation instructions - see guarantee criteria above.
- Any guarantee variations are indicated separately.
- All guarantee forms supplied with installation instructions must be completed and returned within 60 days to validate the lifetime guarantee otherwise only a statutory 12 month guarantee will apply.
- All Shower Screens and Enclosures are manufactured using toughened safety glass which complies to BSEN12150.
- It is important to note, that the glass must not be mounted or 'pinched' in such a way that would cause a stress point to develop in the glass. In addition, it must not be subjected to any sharp impact or severe temperature fluctuation which may also cause a stress point to develop in the glass.
- Toughened glass is physically and thermally significantly stronger than standard glass. However a significant impact (or stress as outlined above) can cause toughened glass to break. In the event of breakage, toughened glass will break safely into small fragments in line with all relevant Standards.
- All aluminium profiles are extruded in accordance with BS6063 and BS1474.
- All heights quoted for Enclosures and Screens are from the top of the Shower Tray.
- All fixings are hidden on products.
- All fixings and pivot pins are manufactured from stainless steel - this adds great strength and durability to products.
- All seals and gaskets on products are manufactured from colourless PVC.
- The design rights of these products are owned and all rights reserved.
- The manufacturer recommends only the use of their Shower Trays with their Enclosures.
- All Shower Screens and Enclosures are tested in accordance with BSEN14428 - Shower Enclosures, functional requirements and test methods.

This range is available exclusively through
your local specialist Bathroom retailer
