# Haute couture for your bathroom

*We will bring your ideas to life with innovative, tailor-made bathroom solutions to create your wellness space. Innovation and sustainability are our guiding lights, but we never lose sight of what matters most: people and their trust in our team.*

## Who we are

### Professionalism

*Our approach is rigorous, precise and reliable, implemented by a team who are deeply committed to their work.*

### Quality

*We have a responsible attitude to product quality and customer service and have ISO 9001 certification.*

### Creativity

*Innovation feeds us. Thanks to the team's active listening and capacity for innovation, we are able to create products that meet customers' needs.*

### Continuous improvement

*We improve our relationships and our products and services every day in a continuous pursuit of excellence.*

### Teamwork

*Our work is based on respect and collaboration, bringing together diverse perspectives and allowing everyone to do their best work.*

# We design unique experiences

*We create sensations. Through design, texture and colour we take the shower experience to another level. At Acquabella we have a distinctive identity that is reflected in all our products and public activity. The perfect combination of the most advanced technology and craftsmanship offers maximum attention to detail to create spaces that meet the needs of each customer or project.*

## Materials of certified quality

*Products manufactured with durable and easy to maintain materials that will withstand wear and tear.*

## Adaptability

*We bring your ideas to life because we can manufacture in the dimensions you need in a wide range of formats and will gladly personalise our products.*

## 3D Library

*We make your projects a reality using technology. Discover our 3D library and design your own bathroom.*

# Committed to sustainable development

*At Acquabella we realise that we have responsibilities towards the environment and wider society. That is why the business has taken on the UN's Sustainable Development Goals (SDGs) as its own goals. In that respect, we are committed to measuring our environmental impact and taking steps that contribute towards sustainable growth.*

# Innovation to transform the future

*We want to generate unique experiences of comfort, design and safety. As we develop, we want to work with the most sustainable technology, with a firm commitment to quality and respecting the needs of all the people that make up our business and our immediate environment. That conviction has earned us internationally recognised certifications.*

# Akron

*Akron is a next-gen material composed of polyurethane and high-quality mineral of varying sizes compacted to achieve a solid, strong result. The surface is treated with an acrylic polyurethane coating that fully bonds with the underlying material. Akron's advanced formulation allows us to create products with high-definition textures, in bold shapes and a wide variety of colours for products with extraordinary design and high technical performance. Akron was also developed in an efficient and environmentally friendly way. A before and after in the world of bathrooms.*

Composite in polyurethane base with mineral fillers

Resistant to thermal shock

Antislip Class C  
\* *Beton / Slate / Slate Evo / Arabba / Wave / Zero*

Sound insulation  
(DIN 4109 / SIA181 / DIN EN ISO 717-2:2020-01)

Antibacterial certificate  
(ISO 22196:2011)

Easy to cut

Class 1 in UNE-EN 14527:2016 + A1:2019

High definition textures

Hydrolysis resistant. 0% ortoftal-polyester

Safe cut. Material without silica

Cleanability

Material 25% lighter than similar materials

Chemical resistance

Evaluation of VOCs emissions of interior products (ISO 16000-6:2006) A+ and evaluation of CMR

Impact resistant

All colours in all textures

# Texture

*Our collections are designed to reproduce high-definition, sophisticated and elegant textures. With astonishing realism, we have captured textures from nature. Acquabella's textures are also pleasant to the touch, able to transport us to a universe of sensations for the five senses.*

Zero

Nude

## COLOURS STANDARD

## COLOURS NATURALLY MADE

# Colours

*Colour is how we express emotion. Colour allows us to give free rein to our creativity and design inspiring bathroom spaces. We have four colour ranges: Standard, made up of versatile timeless shades; Naturally Made, inspired by the power of nature; Season, new this year, a careful selection of on-trend colours; and finally, the RAL/NCS chart with more than 2,000 colours. With Acquabella, your imagination is the limit.*

## COLOURS RAL/NCS

NCS S 6020-B90G

NOTE: examples NCS

# Colours Season

*Standard bearers of design and fashion, we have made a special selection of colours to fill your bathroom with colour and freshness. Vibrant tones that, far from being overpowering, convey a sense of calm and sophistication. Season is a range of elegant shades, each in light and dark versions, ideal to create contrast and unique colour schemes. It's time to broaden your horizons with Acquabella's Season colours.*

# Dolotek

*Thanks to modern technology, rock formed millions of years ago can be used to make durable, elegant and contemporary products. Dolotek's performance is better than traditional materials, which is why it is often called a 21st century ceramic. Formed from a resin and dolomite stone to give a pure white, soft feeling material.*

*Dolotek's properties mean that it can be used in functional products of high technical quality which can be moulded into complex shapes to improve our daily lives. The technology used to make Dolotek was developed in an efficient and environmentally friendly way and is unique in the bathroom industry.*

Composite of polyester resin and dolomite stone

Resistant to thermal shock

High performance coating

Sound insulation

Antibacterial certificate  
(ISO 22196:2007)

Durability

Cleanability

Versatility

UV ray-resistant

Silky touch

Resistance to fire

Precision

Resistance to chemicals

Evaluation of VOCs emissions of interior products (ISO 16000-6:2006) A+ and evaluation of CMR

# Halo Slate

*We are enveloped by minimalism with Halo Slate, a shower tray with a framed design. It has a smooth, gently falling frame, which creates a subtle contrast with the definition of the slate. The Halo Slate shower tray is crowned with a rectangular grid integrated into the frame for rapid drainage.*

# Areia Slate Evo

*Inspired by the way the sea wears rock, Acquabella has launched its Areia Slate Evo made-to-measure shower tray. Its simple design takes the shower experience to another level thanks to the Slate Evo texture, a re-imagining of the traditional Slate texture that progressively falls away to the grid.*

## Standard sizes (cm)

# Natur Wave

*Acquabella presents the new Wave texture. Its design was inspired by the dynamic patterns seen in nature. Rings of varying heights embrace and trace an irregular grid, to give our Natur model. The result is a shower tray that exudes design and personality from every side.*

# Smart Quiz

*The Smart Quiz shower tray represents the essence of Acquabella: cutting edge, creative and ground-breaking. An innovative design whose most distinctive feature is a geometric puzzle of Beton, Zero and Ethnic textures. Made-to-measure Smart Quiz shower trays have a central grid which is totally integrated into the lines of the shower tray to hide the drain.*

# Tempo Arabba

*Tempo Arabba represents a return to our origins, marked by design and craftsmanship. Looking as though made from fabric, it reproduces the appearance of hand-woven natural fibres with the care that Acquabella invests in every product. Its patterning plays with our visual perception, merging with a stone finish. A texture true to our desire to be different.*

# Flow Zero

*The Flow Zero shower tray is designed to become one with water. Its design immerses us in a universe of calm and relaxation thanks to a refined minimalist style. Its gentle gradients, in keeping with the Zero texture, direct the water towards a grid integrated into the frame, capable of handling the large flow captured by the its surface.*

# Focus Beton

*Fashion is cyclical but geometric shapes are a constant feature of design. Acquabella wants to convey that sense of unity and perfection through its Focus shower tray. It combines Beton's cement-like texture with a ring in the metal finish of your choice for the drain to provide a harmonic mix of materials.*

# Prisma Slate

*Elegant angles are a key feature of the Prisma Slate shower tray, playing with light and shadow to add extra value to the design. Slate texture takes centre stage in this made-to-measure shower tray, which is crowned with an elongated stainless steel grid, integrated in its smooth contours.*

\* The test was conducted in accordance with the description in item 5.5 of the EN 14688:2006 European Standard using all the chemical reagents provided in Table 2 of this document.

# Use and maintenance

## AKRON

To enjoy your shower tray for years, please follow this simple tips:

For routine cleaning simply rinse with a mild ( non-abrasive ) cotton dish cloth with water. NEVER USE PADS ( SCOTCH BRITE or NATURAL FIBER) no SOLVENTS , ACID, ALKALI OR ABRASIVE . After using any cleaner it is necessary to rinse abundantly with soap and water in order to remove any traces of cleaning products. Ensure sufficient ventilation of the bathroom.

Avoid contact with lacquer, nail polish remover , organic solvents , alcohols , acids, Alkalis,etc.

If you are going to use hair dyes, rinse the shower tray with water and soap when finished.

To remove any traces of lime that can stay in the panel , use a limescale cleaner (Viakal) lowering 1:3 with water (1 L Viakal by 3 L of water) as follows:

- Apply with a wet cloth over the entire surface.
- Leave on for 15 minutes and after that time rinse thoroughly.
- Place the grid again and rinse the shower tray with water again.
- Not recommended for outdoor use.

## DOLOTEK

To enjoy your product for many years to come, follow these simple tips:

1. For regular cleaning, we recommend universal, non-abrasive cleaning products.
2. After each use, rinse the inner surface with water and dry with a cotton cloth. Do not use synthetic or microfibre cloths as they may scratch the surface.
3. To remove limescale, use vinegar diluted with water.
4. Clean stubborn stains with warm water and mild

**ATTENTION:** We recommend using a green pad (Scotch Brite or similar) or an abrasive sponge only in the case of superficial scratches or persistent stains. Do not use it over the logo.

# Akron products characteristics

## PACKING AND SHIPPING CONDITIONS

All Akron shower trays are individually packed in a wood box according to the shower tray measures. Box contains shower tray completely protected and also: 1.- Installation instructions in different languages. 2.- AISI 304 stainless steel grid. High precision laser cut and polished, exclusive design from ACQUABELLA. Ready to install over trap. 3.- All our shower trays are supplied with a high quality syphonic shower trap (waste) according to the European standards.

Claims for damage are not accepted once the POD is signed.

## USE AND MAINTENANCE CONDITIONS

A correct care of your AKRON shower tray from ACQUABELLA will let you enjoy it for many years. On a daily routine basis, a simple water wash out and a good ventilation of the bathroom is enough.

When a more thorough cleaning is needed, cleaning must be performed only with water, regular house cleaning soap and a NON abrasive sponge. DO NOT USE any kind scourer or scrubber.

## AVOID USING CLEANING PRODUCTS CONTAINING SOLVENTS OR ACIDS. DO NOT USE ANY KIND OR ABRASIVE PRODUCT OR CLOTH.

It is most important to protect the shower tray against possible hits and scratches during the installation process. A cardboard sheet is also provided in the box for this purposes.

Using this protective cardboard will also help to avoid mortar, cement, adhesive or even painting remains to stain shower tray. We strongly recommend to protect shower tray during the installation process.

Please be especially careful with the special cement grouts used for ceramic tiles or stone. These products usually contain lime, sands and resins and if they end drying on the shower tray surface, this results in a stain difficult to clean. To avoid letting these products fry on the shower tray surface, wash out it with regularly and with plenty of water and leave the shower tray without any residue. SO, PROTECT WITH CARTON BOARD AND RAISE WITH WATER ANY RESIDUE BEFORE IT DRIES.

In case mortar or cement grout have finally stained the shower tray, FILA DETERDEK should be used at the end of the work.

## SPECIAL SHOWER TRAY

ACQUABELLA Akron shower trays, with the exception of the Arq and Flow models, can be supplied made to measure.

When cutting to exact size, we perform straight cuts. It is not possible to cut arc, bends or curved shapes.

When ordering a "cut to size" ACQUABELLA Akron shower tray it is important: 1/ Indicate the final length of the shower tray in cm (if you wish to cut in length). 2/ Indicate the final width of the shower tray in cm. (If you wish to cut in width). 3/ Draw a sketch of the exact required sizes and shape of the shower tray.

On written request, the cut side can also be ordered painted on the same colour of the shower tray, but please note, the cut side always loses the texture.

## INSTALLING REPLACING PANELS AND ELEVATION SUPPLEMENTS

ACQUABELLA Akron shower tray completes its line with replacing panels to attach to the bathroom wall and also elevation supplements. These products are available on request.

Akron products can be cut using circular saws or grinding machines with diamond discs, as those usually used building.

Fixing of the various elements must be carried out using ULTRABOND or similar and sealing with non-acidic silicone.

#### REPAIRING AN ACQUABELLA AKRON SHOWER TRAY

In most cases it is possible to repair the surface of a shower tray deteriorated by on improper use. A repair kit is available. This kit must be ordered specifying the colour of the shower tray to repair.

To apply the polyurethane repair lacquert, first apply cleaning alcohol to the area to remove dirt and grease. Apply paint with a small paint roller. Leave 48/72 hours for proper drying, do not touch the area while drying, do not use the shower tray in this time.

#### FREQUENT ASKED QUESTIONS (FAQ'S)

- What tool to use for cutting Akron shower tray or panels?

Circular saw with diamond disc, similar to those use for cutting stone, ceramic tiles, etc.

- What cleaning products can be used for AKRON shower trays and worktops?

To clean any traces of glue and cement mortar joints use a descaler called Fugasoap (KERAKOLL), DETERDEK from FILA brand, because it is specific for the removal of debris from construction works, also used for the removal of other components such as salt, rust and lime, please read the instructions. DO NOT RUB, let the product act; NEVER USE PADS (SCOTCH BRITE, or NATURAL FIBER) nor SOLVENTS, ACID, ALKALI OR ABRASIVE. After cleaning, rinse thoroughly and ensure sufficient ventilation of the bathroom. It is not dangerous for the user and not dangerous for the environment

- What are the shower trap (waste) valve characteristics?

The included shower trap (waste) is a top brand one. It is a syphonic trap, with its odour sealant effect the European quality norms. It is equipped with an easy cleaning system, just remove the Acquabella stainless steel grid and you will see a handle, pull the handle and remove the piece, clean it and replace it.

This piece is key in the syphonic effect, so, if there is a second syphonic shower tray installed in the bathroom, you must remove the piece from the shower tray, if not, water will not drain.

- What products can be used to fix and install shower trays or panels?

The bonding of the various elements must be done using SIKAFLEX (SIKA), SUPERFLEX (KERAKOLL) and sealing with grouting ceramic material or silicone nonacidic.

- What is the thickness of replacing panels?

The panels are 6 mm thick. 3D: Min 6mm, Mâx:10mm.

- Where to order spare parts or repairing kits?

You can order spare parts like shower traps, stainless steel grid, repairing kits, instructions and installation leaflets, etc. Please address to ACQUABELLA commercial department, they will be pleased to give you a quotation and fulfil your requests.

- Is any promotion material available for ACQUABELLA Akron shower trays?

Yes, to properly promote and exhibit ACQUABELLA Akron shower trays, there is a special exhibitor unit, ready to show two shower trays. Shower trays can be chosen of any texture and colour.

# Repair

## PUTTY REPAIR KIT

### INSTRUCTIONS FOR THE SURFACE REPAIR OF AN ACQUABELLA AKRON SHOWER TRAY

It is possible to repair the surface of an AKRON shower tray by Acquabella if for some reason the surface of the tray has deteriorated due to improper use. In these cases, you can request a putty repair kit. The kit consists of two containers, A and B. Procedure for repairing a shower tray:

#### ADEQUACY ZONE TO REPAIR:

1. Clean the surface of the tray very well. It can be applied to this process rubbing alcohol or acetone diluted in water with a soft cloth that does not leave any kind of lint.
2. The surface must be completely clean and dry.
3. Dimension the area to be repaired with masking tape or similar.

#### APPLICATION:

4. Open the containers.
5. Mix the components of containers A and B on a putty knife.
6. Extend the putty on the surface to be repaired.
7. Allow to dry for 30 minutes, at approximately 20°C. Once dry remove the bodybuilder's tape.
8. Simulate the texture of the tray with a sandpaper. Remove dirt and clean the area.
9. Paint the tray with a Repair Kit. From this point follow the instructions in the Repair Kit manual.

## DOLOTEK REPAIR KIT

This kit can be used to repair damage and scratches. We recommend that it is applied by a professional. The kit contains all the components required to carry out the repair and to guarantee professional quality and finish.

Preparation of the area to be repaired:

1. Remove loose debris from the damaged surface with the help of a cutter or sharp tool. Apply burning alcohol to remove any loose powder, using a cotton cloth that does not leave any lint.
2. The surface must be completely clean and dry.
3. Protect the perimeter area of the damaged section with masking tape.

Directions for use:

1. Protect your hands with gloves and wear a mask.
2. Pour canister B (Pipette) into canister A and stir with the spatula for about 30 seconds until everything is well mixed.
3. Apply the mix immediately to the damaged surface using the spatula. You must apply excess material, leaving more than enough. Leave to dry for at least 6 hours
4. Remove the masking tape and wet the sandpaper before use. First use the red sandpaper with the white block as a support to sand the damaged surface in small circles. Then repeat the same process using the grey sandpaper.
5. For an improved final finish, give the entire surface a light once-over with a green scourer (Scotch Brite or similar).

\*The Repair Kit has an expiration date of 3 months from the date on the package.

**ATTENTION:** There may be slight variations in shade from the original colour. Repair Kits should be stored in a cool, dry place and out of the reach of children.
